McGraw-Hill Publishing Company, Inc. January 3, 1929 In Two Parts — Part I

Engineering News-Record

AN ISSUE DEVOTED TO

TRENDS IN HIGHWAY DEVELOPMENT

A FORECAST OF THE FUTURE

OUR PRESENT ROAD SYSTEM
By Thomas H. MacDonald
Chief, U. S. Bureau of Public Roads

WHAT WE KNOW OF TRAFFIC AND WHAT IT FORETELLS
By J. Gordon McKay
Director, Cleveland Highway Research Bureau

FINANCING FUTURE HIGHWAY SYSTEMS
By Thomas R. Agg
Professor of Highway Engineering, Iowa State College

HIGHWAYS LEAD TO HIGHER VALUES OF FARM LANDS
By George R. Chatburn
Lecturer on Highway Engineering, University of Nebraska

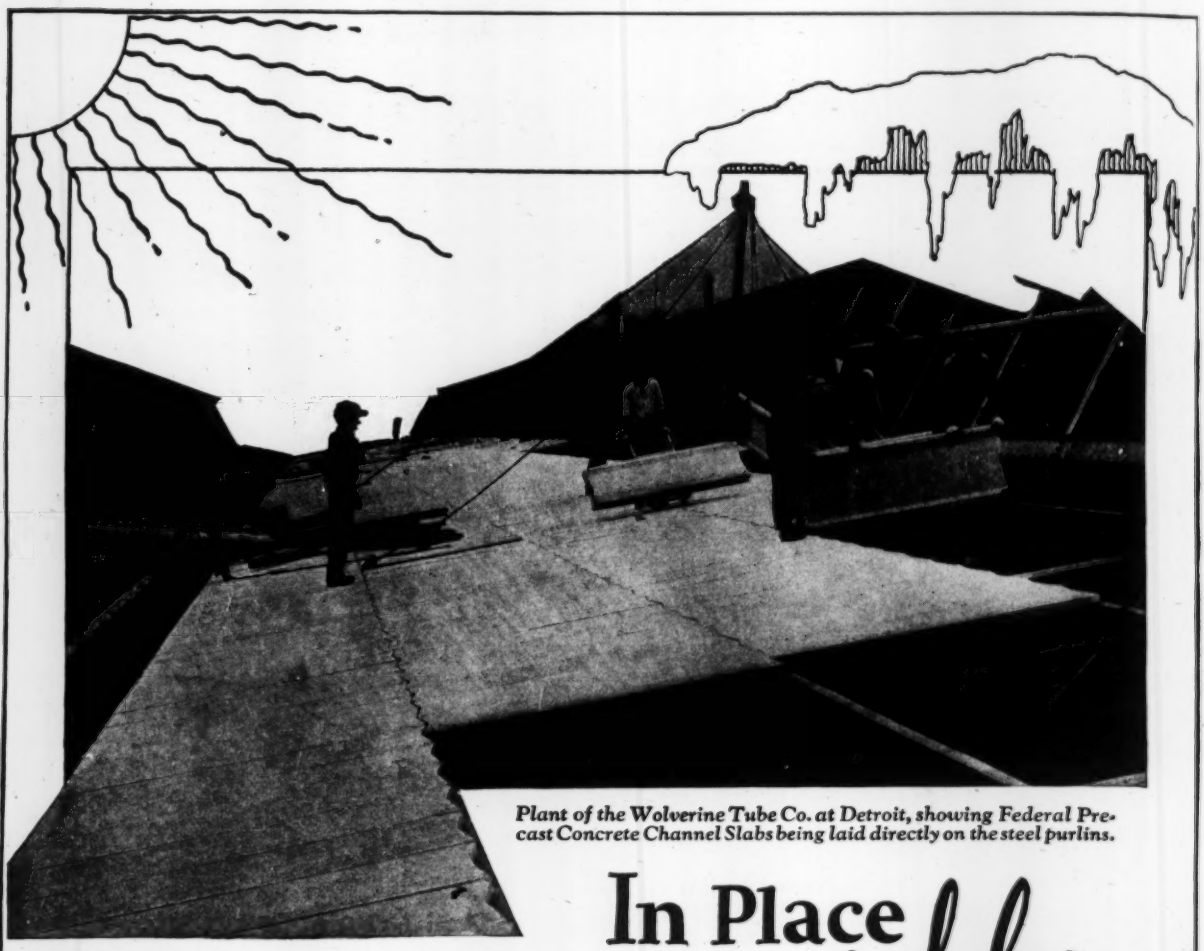
INCREASED CONSTRUCTION EFFICIENCY INSURES VOLUME
By C. M. Hathaway
Engineer of Construction, Illinois Division of Highways

MACHINERY'S PART IN ROAD BUILDING
By Lion Gardiner
President, Manufacturers Division, American Road Builders Association

SERVING THE TRAVELER BY MORE ATTRACTIVE ROADS
By Edward N. Hines
Road Commissioner, Wayne County, Detroit

HOW ROAD TYPES MAY BE IMPROVED
A Symposium

Highway Statistics for Half a Decade in Graphical Form



Plant of the Wolverine Tube Co. at Detroit, showing Federal Precast Concrete Channel Slabs being laid directly on the steel purlins.

In Place *Quickly* in *any* Weather!

From Texas to Canada, any time of the year—in any temperature—roofs of Federal Slabs are laid and completed *on time*. Early occupancy is assured—there is no delay waiting for roof-deck to dry out before applying composition—the slabs are manufactured while the steel is being fabricated.

Important—yet only one of the many other equally important advantages of this fire-proof, no-maintenance roof—that have consistently held it foremost in favor over the years—for industrial, public and railroad buildings. Detail book of Roof Standards, on request.

Made, Laid and Guaranteed by

FEDERAL CEMENT TILE COMPANY

608 *South* Dearborn Street

CHICAGO

FOR OVER A QUARTER CENTURY

These are the Federal Features

1. *Truly permanent—being stone concrete.*
2. *Fireproof—lower insurance rates.*
3. *Light weight saves steel.*
4. *No maintenance whatever.*
5. *Immune to weather, smoke, gases.*
6. *No rust—no rot—no disintegration.*
7. *Quickly laid in any weather.*
8. *Ready at once for composition covering.*
9. *Smooth under-surface—no painting.*
10. *Lowest cost permanent roof available.*

A greater *asset* on the books of the company.

FEDERAL *Light Weight* Precast Concrete Roof Slabs

In Two Sections—Section Two

NEW YORK

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 102—January 1 to June 30, 1929

	Pages
Jan. 3	1 to 50
Jan. 10	51 to 86
Jan. 17	87 to 124
Jan. 24	125 to 164
Jan. 31	165 to 204
Feb. 7	205 to 254
Feb. 14	255 to 292
Feb. 21	293 to 330
Feb. 28	331 to 368
Mar. 7	369 to 410
Mar. 14	411 to 448
Mar. 21	449 to 486
Mar. 28	487 to 524
April 4	525 to 576
April 11	577 to 614
April 18	615 to 656
April 25	657 to 694
May 2	695 to 736
May 9	737 to 774
May 16	775 to 812
May 23	813 to 852
May 30	853 to 890
June 6	891 to 932
June 13	933 to 974
June 20	975 to 1014
June 27	1015 to 1052

A

ACCIDENTS AND ACCIDENT PREVENTION

Cement mills, 18 have no accidents in 1928 ..... n122
Everyday safety e813
National Safety Council to broadcast weekly talks n651
Safety Congress, annual meeting, Sept. 30-Oct. 5 ..... n116
(See also Bridge accidents; Building accidents; Construction, safety measures; Explosions; Highway accidents, etc.)

Acoustics:
Loudness scale, audiometer, applied to problems of practical acoustics, W. Waterfall. *50; E. McCullough l323

Aerial tramways. (See Tramways, aerial.)

AERONAUTICS

Airplanes:
Wheels and landing gear of transport plane n*768

Airports:
Beacon, Cleveland, fog penetration new feature (General Electric Co.) n*448
Competition for design of a modern airport n807
Concrete pavement for airports, designing runway at the Ford airport, E. K. Smith *835
Drainage important e527
Floating air ports for trans-ocean travel *794
Kansas City, Mo., site authorized 73
Landing fields and air ports in U. S. number 1,324 ..... n364
Los Angeles, airport has long concrete runway 189
Los Angeles, constructing a dustless landing strip for air terminal *661
New terminal planned on Jersey meadows n444
New York City, municipal airport on Jamaica Bay 623
Pontiac, Mich., municipal airport, G. D. Kennedy *754
Rapid development e369
Rome, Littoria airport *456
Smaller communities, planning and location, D. M. Baker 785
Airship factory at Akron, O., under construction *583
Aviation as a new factor in transportation, W. G. Herron *232
Forty-eight hour service from Atlantic to Pacific coast e975
Hangars:
Detroit's hangar tangle unraveled n610
Doors for wide span openings (Truscon Steel Co.) n*773
Reinforced-concrete hangars at Orly, France n*399
London-India airway and shed at Karachi, India n*886
Landing fields more than double in 20 months 948
New York State, aviation commission proposed n444

Air compressors. (See Compressed air.)

Air rights:
Boston & Maine R.R. builds coliseum above station, W. E. Belcher *339
Office building in Chicago *665
Mechanical equipment 914

American Association of State Highway Officials, name western committee on materials n807

American Concrete Institute:
Meeting (annual), Detroit e293, e294, 300
Reconstructing committee work e695
Reorganizes its work n650

American Engineering Council:
Meeting (annual), Washington, Jan. 14-15, 1929:
Public problems considered, P. Wooton 132
Modification of constitution n117
Safety of dams, committee on legislation n845

American Railway Engineering Association:
Meeting (annual), Chicago, March 5-7, 1929 ..... 437, n*443
Significant anniversary—thirty years e331

AMERICAN ROAD BUILDERS' ASSOCIATION

Asks aid of manufacturers n925
Convention (annual), Cleveland, O., Jan. 14-18 ..... n79, e127, 148
Equipment advancement recorded at 1929 Road Show; staff report n160, n201
Road show, more than a spectacle e257
Group meetings a1013
Meeting (annual), May 2-3 ..... n807

American Society for Testing Materials:
Meeting (annual), June 24-28; program announced n884

AMERICAN SOCIETY OF CIVIL ENGINEERS

Board of direction, meeting in Dallas, urges reorganization of federal engineering departments n688
Civil engineers join Engineering Council n649
Convention (annual), Milwaukee, July 9-12; Program n1009
Irrigation Division to meet April 25 ..... n609
Meeting (annual), New York, Jan. 16-18, 1929 ..... n39
Marston, Anson, elected president n*117
Technical divisions prominent a137
Meeting, Dallas, Apr. 24-26; engineering problems of the oil industry chief interest 715

AMERICAN WATER WORKS ASSOCIATION

Constitution, new e935
Convention, Toronto, June 24-29:
Preliminary program n806
Railway accommodations n921
Florida Section, meeting, April 10 ..... n651
Indiana Section, meeting, Feb. 27-28 ..... n400
Rocky Mountain Section, annual meeting, Feb. 14-15 ..... n363

AMERICAN WELDING SOCIETY

Meeting (annual), Apr. 24-26 ..... e697, n722

American Wood Preservers Association:
Meeting (annual), Louisville, Jan. 22-24, 1929 ..... n249

Ames, L. R., becomes Louisiana state highway engineer n*198

Approaches to bridges and tunnels, necessity for eliminating traffic hindrances e775

AQUEDUCTS

Colorado River, all-gravity aqueduct proposed for southern California n848
Colorado River, water for southern California 512

Arches:
Load test of model of cellular concrete arch, R. J. Fogg *418
Study and practice e451
(See also Bridges.)

Arizona Public Health Association, annual meeting (2nd), Apr. 16-17 ..... n771

Asphalt:
Asphalt product, new, for sewer pipe joints (Stand. Oil Co., Ind.) n774
Pavements. (See Highway construction, bituminous; Pavements and paving.)

ASSOCIATED GENERAL CONTRACTORS

Activities n1011
Convention (annual), Chicago, Feb. 18-21:
Contracting problems reviewed e332, 354
Good financing needed e332
New York State Highway Chapter:
Convention (annual), Syracuse, March 13-14 ..... n482
Spring meeting, May 16-18; standardized credit practices discussed n848
Surety bonding affiliated bureau organized n247
Trade practice conferences n970

Association of Highway Officials of the North Atlantic States:
Convention (annual), Atlantic City, Feb. 13-15 ..... n325, e332

Awards:
Phebe Hobson Fowler awards available by A.S.C.E. n*363

B

Backfiller, new, small (Buckeye Traction Ditcher Co.) n*851

Baltimore, Md., committees to report on city problems n886

Barge lines of Inland Waterways Corp., joint through rail-and-water rates established by I.C.C. e657

BEAMS

Built-up wooden beams, advantages 703
Concrete beam testing machine for highway engineers (Tinius Olsen Testing Machine Co.) n*1051
Continuous beam design practice brought up to date, M. G. Findley *467

Blake, H. W., street railway authority, death n*847

BLASTING

Dynamiting opens a channel for highway fill without excavation, J. A. Johnston *417
Pocket-size blasting machine works on dynamo principle (Hercules Powder Co.) n*403
Road fills in Minnesota muskeg settled by blasting, e777; P. W. Riedesel, *788; economics l1007

BONDS

Chicago Sanitary District to issue bonds n969
Highway. (See Highway economics.)
Improvement bonds in various cities n197
Los Angeles to vote on issue for water and electric construction n886
Defeats bond issue n969
Pasadena to vote on water bonds n883
Water bonds approved n1045
Providence, R. I., quick turnover of issue n363
San Francisco water bond offer brings no bids n120
Tax-exempt bonds increase 269

BOOK REVIEWS

Allied armies under Marshall Foch (Report of the Mil. Bd. of Allied Supply) 802
American sewerage practice; vol. I, 2nd ed. (L. Metcalf and H. P. Eddy), reviewed by J. H. Gregory 112
Arithmetic of sewage-treatment works (K. Imhoff) 645
Bridges of Pittsburgh (J. White and M. W. von Bernewitz) 320
British floods and droughts (C. E. P. Brooks) 645
Building estimators' data book (C. F. Dingman) 1005
Civil engineering, textbook for a short course (W. A. Mitchell), reviewed by M. S. Ketchum 320
Concrete bridges and structures (G. A. Hool), reviewed by E. L. Eriksen 801
Contemporary municipal government in Germany (B. W. Maxwell) 646
Dachbauten (H. J. Kraus and Fr. Dischinger, reviewed by A. Floris 221
Dighe (I. Scimeni); correction 116
Eisenwasserbau, (Der), (H. Kulka), reviewed by I. Gutmann 475
Electrification of steam railroads (K. T. Healy) 1005
Elements of geophysics (R. Ambronn), reviewed by R. E. Horton 644
Empire municipal directory and yearbook 1005
Engineering English (J. H. Scott) 112
Floods in the valley of the Mississippi (J. P. Kemper) 647
Fortschritte in der Ausfaulung von Abwasserschlamm (M. Prüss), reviewed by A. M. Buswell 111
Foundations (W. Simpson) 644
Grundbegriffe des Städtebaues (K. A. Hoepfner), reviewed by H. M. Lewis 475
Highway construction and finance (E. W. James) 1004
Labor management (G. S. Watkins), reviewed by C. S. Gow 321
Matthew Murray, pioneer engineer (E. K. Scott, ed.) 1003
Measurement of the discharges of the Nile through the sluices of the Aswan dam (H. E. Hurst and D. A. F. Watt), reviewed by R. E. Horton 109
Mechanics for engineers (J. C. Smallwood), reviewed by L. E. Moore 113
Memoirs and addresses (J. A. L. Waddell), reviewed by L. E. Moore 319
Modern public cleansing practice (A. L. Thomson) 802
Municipal yearbook for 1928 (E. C. Fairchild) 1005
On the bottom (E. Ellsberg) 800
Outline of careers for women (D. E. Fleischman) 320
Permeazioni d'acqua e loro effetti nei muri di ritenuta (O. Hoffman), reviewed by A. C. Janni 319
Practical railway painting and lacquering (H. Hengeveld and others) 802
Practical treatise on suspension bridges (D. B. Steinman), reviewed by O. H. Ammann 800
Public utility service and discrimination (E. Nichols) 1003
Reinforced-concrete bridges (W. L. Scott and C. W. J. Spicer), reviewed by S. B. Slack 111
Sanitary Engineer, story of (H. C. Meyer) 474

*Illustrated: a, abstracts; e, editorials; j, job and office; l, letter; n, news

Science des plans de villes, La (A. A. Rey & others), reviewed by H. M. Lewis 1004
Sewerage—10th edition (A. P. Folwell), reviewed by J. H. Gregory 1003
Sewerage and sewage treatment (H. E. Babbitt), reviewed by J. H. Gregory. 474
Skyscrapers and the men who build them (W. A. Starrett) 646
Sons of Martha: biographical record governing a century of American achievement (D. Merritt) 645
Story of engineering in America (C. Fraser) 110
Strength of materials (J. O. Draffin), reviewed by L. E. Moore 113
Untersuchung der Ueberfallkoeffizienten (O. Kirschmer), reviewed by I. Gutmann 113
Urbanization (J. G. Thompson) 647
Utilisation des forces hydrauliques (M. DeGove), reviewed by J. V. Zahlen.. 110
Vom Wasser — ein Jahrbuch; reviewed by W. Rudolfs 475
Wasserabfluss durch Stollen (E. Schleiermacher), reviewed by I. Gutmann ... 113
Wasserbewegung, (Die), im Dammkoerper (I. Schmied), reviewed by I. Gutmann 113
What engineers do (W. D. Binger)..... 801
Winter construction methods (C. S. Hill), reviewed by A. P. Greensfelder.. 109
Boulder dam. (See Colorado River.)
Breakwaters:
Rock unloading record, high, Long Beach, Cal. j*77

BRICK AND BRICKWORK

Bronze brick certifies materials and workmanship in buildings 549
Old vitrified paving brick size reinstated n729
Reinforced brickwork, possibilities of, and survey of practice in India, e293: L. B. Lent *304

BRIDGE ABUTMENTS AND PIERS

Concrete piers, setting temperatures, A. A. Jakkula *913
Open caissons for deep piers, Suisun Bay bridge e487, *504

BRIDGE ACCIDENTS AND FAILURES

Chicago, Clark St. bridge wrecked by hopper hydraulic dredge n769
Columbia river, Great Northern Railway bridge, scouring and ice pack cause trouble n608
Hackensack River bridge on the Lincoln Highway:
Designers differ with board on cause of failure e255, 268
Failure due to defects in counterweight tower, e52, *74; P. L. Pratley 1285; E. Godfrey 1285
Failure due to inadequate design.... e892, *916
New Jersey sues designers of bascule bridge n846
Ice jam carries away bridge.....n483
Mount Hope suspension bridge, R. I.: Breaks in cables e487, n516
Cable failure to be investigated by Bur. of Standards e738, n770
Cables before removal n*922
Dismantling under way n567
Technical aspects of cable wire breakages e578, *602
Pennsylvania and Lehigh Valley R.R. bridge over Newark Bay; lift span falls n*566
Fallen lift span undamaged n609
Pennsylvania R.R.-State of N. J. highway bridge, caisson air lock tears loose n919
Failure of welded joint.....e975, n*1010
Bridge design:
Rigid-frame construction applied to structural steel, Mount Pleasant bridge, e488; R. M. Hodges.....*509
Steel frame boulevard viaduct, New York e976, *978

BRIDGE ERECTION

Concrete bridge, winter construction, Springfield, Mo. W. J. Gray.....*995
Cooper River bridge caisson sunk to place after disastrous tip n79
Double-track steel bridge, Suisun Bay.. e487, *504
Falsework:
Ingenious bridge erection reduces falsework e412, *430
Hudson River bridge anchorage construction e578, *591
Record construction of toll bridge across Ohio at Paducah, Ky. E. E. Howard.*831
Suspension bridge tower at Detroit erected by creeper traveler. L. L. Martin *186
Bridge renewals and repairs:
India, Johilla River bridge, launching new truss spans n*650
Old wood trusses supported by new suspension spans j*1040
Bridge stresses:
Cellular arches. (See Bridges, Arch.)
Hackensack River bridge failure due to machine stresses, e52, *74; P. L. Pratley, 1285; E. Godfrey.....1285
Kill van Kull bridge, model used to check design stresses..... n81
Bridge traffic:
Radio used for emergency control..... 31

BRIDGES

Arch:
Concrete cellular arch bridge, load test of large model, R. J. Fogg, *418; G. D. Houtman 1607
Concrete cellular arch bridge, Chester, Pa. G. D. Houtman 1607
Model of Kill van Kull bridge used to check design stresses n81
Arlington Memorial bridge, progress.... 240
Bridge construction during 1928 .....e207
Columbia River bridge between Portland and Vancouver, tolls removed 313
Concrete:
Portland, Ore., Broadway bridge, concrete delivered by mixer trucks....*458
(See also Bridges, Arch.)
Continuous girder bridges, e89; G. Lindenthal 1397
Cooper River bridge, Charleston, S. C.:
Caisson sunk to place n79
Progress 240
Dardanelle bridge over Arkansas River dedicated Jan. 17 .....n158
Detroit, Ambassador suspension bridge:
Breaks in cables found..e487, n516, n808
Cables to be replaced.....e527, n564
Progress 239
Span placed in position n*38
Tower erection by creeper traveler, L. L. Martin *186
Fort Lee bridge over Hudson River:
Anchorage construction e578, *591
Foundations completed, May 22.....n922
Progress *241
Steel towers, aerial view of.....n*968
Weld test of heavy column joints... e369, *385
Fort Steuben bridge across Ohio River, inspection, C. W. Hudson.....1*1043
Great Falls, Potomac River, War Dept. approves bridge n846
Hackensack River bridge on the Lincoln Highway. (See Bridge accidents and failures.)
Idaho to spend $2,000,000 for bridge construction n608
India, Johilla River bridge.....n*650
James River, at Dutch Gap, permission refused for bridge n690
James River, at Varina, Va., opposition to height n610
James River bridge (three projects), 5-mile, built in 13 months e51, *54
Kill van Kull bridge, Bayonne, N. J.-Port Richmond, S. I.:
Bids called for approaches n325
Bids opened for approaches n398
Contracts for the piers for approaches awarded n445
Model used to check design stresses.. n81
Progress 241
Lake Champlain bridge, progress..... 241
Lake Pontchartrain toll bridge in hands of receivers n247
Lee's Ferry bridge across Colorado River, dedication June 14-15.....n809, n*1045
Missouri River, continuous truss bridge at St. Joseph, Mo., e89; L. J. Sverdrup *100
Montreal calls for bids on new bridges..n770
Mount Hope suspension bridge, progress 242
(See also Bridge accidents and failures.)
Mount Pleasant, N. Y., rigid steel frame bridge, e488; R. M. Hodges.....*509
Movable:
Lincoln Highway bascule bridge over Hackensack River. (See Bridge accidents and failures.)
Pennsylvania and Lehigh Valley R.R. lift span bridge. (See Bridge accidents and failures.)
New Orleans asks federal aid for bridge at Twelve-Mile Point n809
New Orleans, status of two proposed bridges n247
Decision expected soon n1049
New York City:
57th St. bridge:
B. & O. not interested.....n767
Clearance of 200 ft. required.....n920
War Dept.'s decision.....e933
High Bridge, submarine cutting torch to remove cofferdam j*514
Riverside Drive, building design applied to boulevard viaduct..e976, *978
Tri-borough bridge, Bronx to L. I., city to build e411, n444
(See also Bridges, Fort Lee; Kill van Kull.)
New York state budget n196
Ohio River, Point Pleasant to Gallipolis, eyebar suspension span, e976; W. T. Ballard *997
Paducah, Ky., toll bridges across Ohio River record construction, E. E. Howard *831
Portland, Ore., Broadway bridge, concrete delivered by mixer trucks.....*458
Portland, Ore., proposed St. John's bridge over Willamette River n*921
Poughkeepsie bridge over Hudson River, caisson sunk to final position..... n37
Quebec railway bridge, roadway on....n482
Railway:
Great Northern Ry. bridge over Columbia River, scouring and ice pack n608
Maine Central R.R. bridge at Lunenberg, Vt., serviceable after 41 years n*156
Pennsylvania and Lehigh Valley R.R. bridge over Newark Bay; lift span falls n*566
Fallen lift span undamaged n609
Southern Pacific R.R., Suisun bay bridge. (See Bridges, Suisun Bay.)
Richmond, Va., high level viaduct across James River planned n287
St. John's harbor, New Brunswick, new bridge planned n609
San Francisco Bay:
Richmond to Marin County, hearing held by War Dept. n82
San Mateo-Hayward bridge:
Lift span placed by barges and tide.n247
Opens n567
Sandusky Bay bridge opened to traffic, Feb. 2 .....n289
Springfield, Mo., winter construction of concrete bridge, W. J. Gray.....*995
Steel:
Rigid-frame construction, Mount Pleasant bridge, e488; R. M. Hodges *509
Suisun Bay bridge of So. Pacific R.R.:
Contract let n365
Open caissons for deep piers of railroad bridge e487, *504
Progress 238
Suspension:
Ambassador bridge, Detroit. (See Bridges, Detroit.)
Eyebar span for Ohio River bridge, e976; W. T. Ballard.....*997
Fort Lee bridge over Hudson river. (See Bridges, Fort Lee.)
Fort Steuben bridge, inspection, C. W. Hudson 1*1043
Mount Hope bridge. (See Bridge accidents and failures.)
Water main supported on bridge of 170-ft. span, T. W. Espy *861
Susquehanna River concrete bridge, work started n1908
Toll:
California may have state owned toll bridges n196
California, private toll bridges in disfavor 606
Calif., state ownership, new policy e1016, n1048
Columbia River bridge between Portland and Vancouver, tolls removed 313
Cooper River bridge. (See Bridges, Cooper River bridge.)
Growing public opinion against.....e615
Kentucky bond sale assures construction n805
Kill van Kull. (See Bridges, Kill van Kull.)
Lake Pontchartrain toll bridge in hands of receivers n247
Ohio River at Paducah, Ky., record construction of bridge, E. E. Howard *831
Oklahoma and Texas to take over toll bridges n80
Texas bridges, tolls reduced 268
War Dept. and bridges e738
Wooden bridge of long-span built in 1796, F. M. Goodhue 766
Wooden covered bridge with arcaded sidewalks, Rushville, Ind. j*885
British Columbia, road and bridge program 503

BUCKETS

Cableway bucket for light and heavy digging (Sauerman Bros.) n*44
Clam-shell bucket for light cranes (G. H. Williams Co.) n*43
Polyp bucket, multiple flexible-blade (Reichmann-Becker Co., Germany)..n*925

BUILDING ACCIDENTS AND FAILURES

Burning scaffolding damages New York church under construction, e3; H. H. George 1115
Chicago, Foreman Bank Building, fire destroys formwork n156
Steel erection derrick drops load of beams, New York e659, n*690

BUILDING ALTERATION AND REPAIR

Boston Slump, cathedral, England, repairing n*967
Hazards e450
Miami, Fla., hotel columns strengthened by gunite enlargement, H. D. Hilborn *663

BUILDING CONSTRUCTION

Progress during 1928 .....e207
Utah appropriates large sum for construction n805
Building demolition:
Skeleton-frame building, oldest, to be wrecked n722

BUILDING DESIGN

Beams. (See Beams.)
Concrete:
Precast units for fire house, Oakland, Calif. F. Colbourn *141
Floors. (See Floors.)
Foshay Tower, 450-ft. office building, Minneapolis, G. R. Magney, *372; M. G. Hyde 1721
Framing, timber, behavior under stress, S. E. Berkenblit *898
Structural features of 628-ft. Chanin Building, New York, L. A. Ball *740

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Traffic-vibration dampers for buildings, tests, e368; S. E. Slocum *377
Welded buildings:
Arc welding used in adding floors to building, Cleveland *313
Cleveland, Upper Carnegie Building, designed for and erected by arc welding e617, *618
Hospital addition, Wheeling, W. Va., erected by arc welding j*684
Hotel, Hot Springs, Va., arc-welding practice, e617; H. M. Priest *490
Niagara Falls, gas-welded building e1015, n*1046
Wind-resistant:
Chanin Building, 626-ft., New York, wind bracing, L. A. Ball *740
Wind and tall building frames e776

BUILDING LAWS AND REGULATIONS

California committees at work on standard building code n846
Montreal, new scaffolding laws and regulations 679
New York State multiple dwelling law approved n688
Pacific Coast municipalities allow welding 544
(See also Construction, safety.)

BUILDINGS

Chicago:
Daily News Bldg.:
Air-rights office structure *664
Mechanical equipment of office and newspaper bldg. 914
Defective school buildings closed n846
Merchandise Mart, steel fabrication begun n326
Cleveland, Upper Carnegie Building, arc welded e617, *618
Concrete, reinforced:
Tallest, in Toronto, built during 1928, J. M. Oxley l*804
Denver, Colo., contract awarded for city and county building n482
Dept. of Commerce building, Wash., D. C., cornerstone laid n1010
Detroit, National Town and Country Club building, unusual foundation design, W. S. Wolfe *703
Detroit water board builds 20-story office building, G. H. Fenkell and D. C. Grobbel *949
Hot Springs, Va., Homestead Hotel, arc-welded, e617; H. M. Priest *490
Industrial:
Paper mill, 250-ton, to be erected in Quebec n399
Life of modern building, 30 years 990
Louisville, Ky., Medical Arts building plans n806
Miami, Fla., hotel, strengthening weak columns by gunite enlargement, H. D. Hilborn, *663; J. C. V. Christensen 1766
Minneapolis, Foshay Tower, 450-ft. office building, G. R. Magney, *372; M. G. Hyde l721
Navy munitions depot at Hawthorne, Nev., first contract let n81
New York City:
Bank of Manhattan Company Building to be 840-ft. high n609
Chanin Building, structural features, L. A. Ball *740
Waldorf hotel to be replaced by office building n81
Oakland, Calif., unique fire house structure of precast units, F. Colbourn .. *141
Richmond, Va., 21-story bank building planned n37
Taller buildings, e207; J. M. Oxley l*804
Toronto, Canadian Bank of Commerce to erect new tall building n724
York Water Co., administration building, E. P. Kable *950
Bulldozer, new, power-operated, follows ground contour (Miami Trailer-Scraper Co.) n*523
Burroughs Adding Machine operated by electric power n*85
Business:
Economic balance e891
Stability, how to maintain e814, 842

C

Cables:
Bridge. (See Bridge accidents and failures; Bridge erection; Bridges.)
Cableways. (See Tramways.)
Caissons:
Air lock tears loose at welded connection, killing six n919
Failure of welded joint on airlock e975, n*1010
Open caissons for deep piers, Suisun Bay bridge e487, *504

CANALS

All-American canal, survey to determine final location n519, n691
Dismal Swamp canal purchased by U.S. .. n516
Interocean canal routes studied by army engineers n483
Nicaraguan canal board named n1009
Nicaraguan canal route survey n198
Panama Canal, traffic in 1928 318
Welland Canal, damaged lock gates removed and replaced by pontoon gate lifter n1051
Welland ship canal, progress *239
Car-washers in railway yards *503
Carbon monoxide:
In tunnels ..... e695, *711; O. Singstad 881
Cars:
Railway. (See Railway cars.)
Tank car heater, lightweight (E. D. Etnyre & Co.) n*43

CEMENT

Acid-proof cement: "U. S. Standard" (U. S. Stoneware Co.) n523
A.G.C. opposes cement tariff n652
Belgium's industry flourishing 508
Economies in concrete by study of cements, N. C. Johnson *314
Marquette Co. plans barge line between plants n*84
Oklahoma, state-owned plant proposed .. n521
Portland cement, basic chemistry of, studied by Bureau of Standards 185
Portland, constant-level attachment for soundness test, H. Tucker j*765
Production and shipments n367
Testing laboratory established at U. S. Bureau of Standards n925

CEMENT GUN

Guniting steel true to cross-section and alignment e88 *94
Strengthening weak building columns by gunite enlargement, hotel, Miami, Fla., H. D. Hilborn *663; J. C. V. Christensen l766
Viaduct walls of gunite and of granite backed with gunite, New York e876, *978
Central States Sewage Works Association, meeting, June 20-21 ..... n1046
Changes in industry's physical equipment e51
Chicago diversion of water from Great Lakes:
Supreme Court declares abstraction except for navigation illegal e87, n116, e126, 146, e208
C. E. Hughes to hear testimony re adverse decision n565
Hearing continued—four years, to complete disposal plants n688
Case closed until early fall n722
Could stop all lake diversion within six years, engineers testify before Hughes n629
Chicago Sanitary District:
Dilemma, facts bearing on e413, 441
Engages consultants to make survey n286
Indictment of defrauding officials n847
Reduced budget n1047
Chlorinator, portable (Paradon Mfg. Co.) n*973

CITIES

Consolidated cities e489, 496
Garden City near Chicago, e293; A. W. Consoer *308
Pittsburgh, Pa., charter draft for consolidated city e489, 496
City manager. (See Municipal government.)
City planning:
Garden city near Chicago, e293; A. W. Consoer *308
San Francisco, civic center *379
(See also Regional engineering and planning)
Coleman, C. P., death e616, n653
Colombia, U. S. federal engineer, E. W. James, loaned to n484

COLORADO RIVER

Aqueduct project for southern Calif. water supply 512, n848
Boulder Canyon project:
And power plant according to a recent sketch by U. S. Bureau of Reclamation n*922
California R.R. Commission officials study dam n650
Chief engineer not yet appointed n39
Plant not detrimental to power situation in southern Calif. e616
Present status; abstract from bulletin of E. Mead a463
Progress e206
Project act effective, June 21 ..... n1049
Studies in active progress n690
Compacts:
Six-state compact ratified e411, n445
Tri-state conference adjourns n1011
Utah asks U. S. survey of upper Colorado basin n808
Utah governor names commission n725
Utah to ask conference on agreement n651
Power permits not to be issued n198

COMPRESSED AIR

Air compressors:
Interchangeable parts feature new line (Buhl Co.) n*367
Portable compressor of 360-ft., largest yet built (Schramm, Inc.) n*403
Self-propelled, for railroad service (Chicago Pneumatic Tool Co.) .. n*926
Machine for surfacing concrete (Chicago Pneumatic Tool Co.) n*329

CONCRETE

A.C.I. (See American Concrete Institute.)
A.S.T.M., committee to study concrete and concrete aggregates 7
Curing:
Standard cement concrete pavement opened in 48 hrs., e854; E. A. Meckley *871
"Drowned" concrete, W. F. Way l479
Lightweight concrete, burned clay cellular aggregate used a746
Practical tests, A. F. Gilman, l721; G. J. Griesenauer l918
Progress e211
Ready mixed:
Central supply problems e293, 302
Delivered by mixer trucks for bridge ramp *458
Motor truck bodies; new designs developed for concrete haulage n*569
Problem of truck mixers e256
Reinforced:
Continuous beam design practice up-to-date, M. G. Findley *467
Setting temperatures in bridge piers fluctuate with outside cold, A. A. Jakkula *913
Strength:
Effect of temperature on strength, C. C. Wiley, *179; C. C. Carpenter 1323
Subways of New York, concrete's 15-year record, e370; G. L. Lucas *380
Sugar in concrete, effect of, in large-scale trial, M. N. Clair 473
This material—concrete; article in four chapters by N. C. Johnson:
I—Difficulty of standardization e87, e127 128
II—Commercial production of concrete 173
III—Simplifying quality production ... 263
IV—Effecting economies by study of cements e294, *314
Discussion, G. M. Williams, l478; N. C. Johnson, l478; W. F. Way, l479; A. F. Gilman, l721; G. J. Griesenauer l918

CONCRETE AGGREGATES

Burned clay cellular aggregate for lightweight concrete a746
Discussion, K. K. Wyatt l1044
Diatomaceous silicas, study of, by Bureau of Standards 262
Displaced aggregate decreases joint thickness 756, e775
Lightweight material for concrete to be tested by Bureau of Standards 912
Moisture determination by specific gravity, W. M. Dunagan, l285; H. C. McCall l804
Poor aggregates affect durability of concrete, W. H. Wheeler ..... l 1007
Proportioning gravel aggregate 34

CONCRETE MIXERS

Charging tank, automatic measuring, for calcium chloride, H. D. Wells j*193
Improvement and progress, J. E. Bushnell *553
Measuring aggregates by weight or volume with "AggreMeter" (Erie Steel Construction Co.) n*292
New mixer fitted for weighing (Koehring Co.) n*1051
One-bag mixer, new (Marsh-Capron Co.) n*812
Ready-mixed concrete, concrete delivered by mixer trucks, for bridge ramp ... *458
Springless scale applied to proportioning plant (Heltzel Steel Form & Iron Co.) n*42
Study of mixing action in large concrete mixers e370, 394
Truck bodies, new designs for concrete haulage n*569
Truck mixers, problem of e256
Two mixers work side by side in paving Ohio roadway 307

CONCRETE PROPORTIONING AND MIXING

Basic principles of concrete-making, F. R. McMillan:
I—Cement paste the basis of concrete quality e579, *581
II—Strength and watertightness—supporting data *625
III—Combining aggregates with paste to make workable concrete *673
IV—Application to specific conditions .. *705
V—Importance of proper construction methods *748
Discussion, W. H. Wheeler ..... l 1007
Columbia University offers short courses on concrete mixtures n248
Good concrete, making of, J. P. J. Williams l361
Sand ratio questioned, G. M. Williams, l478; N. C. Johnson l478
Truck-mixer concrete, tests, A. R. Hirst 798
University of Wisconsin gives short courses n79
Concrete Reinforcing Steel Institute, annual meeting, April, 15-17 ..... n811

CONCRETE UNITS

Interlocking precast concrete cells used in making sea wall *872
Precast floors of novel design used in two buildings, M. Miller *493
Precast units for fire house, Oakland, Calif., F. Colbourn *141

CONCRETING

Formwork:
Concrete dam construction, pipe braces used to hold form panels, D. McFarland j*514

Form displacement analyzed for practical concrete-workers, e616; A. G. Hampton:
I—Lateral displacement *500
II—Vertical displacement *560
Interlocking precast forms used in making sea wall, Calif. *872
Rationalizing formwork e616
San Francisquito power house, rebuilding *494
Record placing:
Multiple-lane paving job, Los Angeles. G. W. Jones *506
Pardee dam high-speed construction. C. E. Grunsky, Jr. *258
Under-water work, steel trash rack of hydro-electric plant. C. Kandel *632
Winter. (See Construction, winter.)

CONCRETING PLANTS

Analysis of a building plant. J. G. Ahlers *837
Hudson River bridge, anchorage construction e578, *591
Mobile and movable mixing plants for scattered operations. T. F. Davey ..j*357
Pardee dam, high-speed construction methods. C. E. Grunsky, Jr. *258
Portland, Broadway bridge, concrete delivered by mixer trucks *458
Reservoir, Portsmouth, Ohio, on hillside. R. J. Turrell *97
Starved Rock dam, traveling forms used. S. Van Pelt *778
Waterville dam, plant hung on side of gorge, revolving cranes used *894
Conduits. (See Pipe and pipe lines.)
Constant-level attachment for soundness test on portland cement. H. Tucker...j*765

CONSTRUCTION

Costs:
Equipment factor in estimating costs. A. H. Hunter *537
Day labor, confusion of terms e855
Equipment:
Advance in equipment engineering. E. H. Lichtenberg *545
Building by machine — Aspects of equipment progress, e525; A. H. Hunter l*881
Diesel-powered equipment, economics of. L. H. Morrison *532
Electric power possibilities. R. C. Muir *542
Epochal developments made in equipment engineering. R. B. Dale 550
Highway. (See Highway equipment.)
Improvements e211
Material tower operates both cage and concrete bucket (Lakewood Engineering Co.) n*730
Standardizing, practical advantages—30 years' experience. F. L. Copeland 541
Standardization an economic need. C. S. Embrey 548
Tower machines for levee construction, an estimate, e658; W. L. Thompson *682
Haulage. (See Concreting plants; Motor vehicles, trucks; Tramways, aerial.)
Materials:
Developments in 1928 ..... e211
Sand, amount paid for a load. E. R. Dawley *1032
Methods advancing e211
Mississippi River flood control a challenge to the industry, e88; C. S. Hill *90
Outlook for 1929 ..... *242
Projects of 1928; a pictorial survey ...*221
Safety measures:
Maintaining safety important e615
Progress in 1928 ..... e212
Public safety first e659, n*690
U. S. Dept. of Labor seeks legislation to safeguard workers on federal buildings n691
(See also Accidents and accident prevention.)
Statistics:
Business side of construction, facts and events that affect cost and volume n45, n86, n124, n158, n200, n251, n290, n328, n366, n405, n448, n484, n524, n572, n614, n656, n694, n731, n774, n812, n852, n890, n927, n974, n1014, n1052
Construction, past figures and future outlook *242
Winter:
Chippewa Falls hydro-electric plant, rapid construction *311
Concrete bridge, quick-setting cement principal factor. W. J. Gray *995
Costs itemized on a concrete building. B. R. Gebhart *356
Construction camps:
San Gabriel dam, camp and program. E. C. Eaton *1030

CONSTRUCTION PLANTS

Mississippi River levee work. A. M. Shaw *296
Mississippi River revetment, e166; C. S. Hill *182
(See also Concreting plants.)

CONTRACTORS

Court decision, contracting practices, etc., A.G.C. survey n1011
Credit reform demanded in time-payment sales. S. M. Williams 535
Prequalification of New York State contractors proposed n247
McLean Contracting Co. joins Merritt-Chapman & Scott n198
Stabilizing contracting e212, e294
Suit won by Passaic Valley sewer builder because of engineer's misrepresentations e53, 66
Surety bonding companies affiliate with A.G.C. n247

CONTRACTS

Baltimore appoints committee to standardize contracts n325
Cramton public contract act n82
Foreign contracts, large n287
Conveyors:
Belt:
Hudson River bridge, anchorage construction e578, *591
Portable belt unloader for hopper-bottom cars (Barber-Green Co.) ..n*367
Cook and mess wagons mounted on trailer chassis. D. M. Hoffman j*766
Corrosion:
Electrolysis and soil corrosion of water pipe; discussed by A.W.W.A., New York section n40
Cost-accounting:
Misleading cost figures e167
Cost and volume index numbers. (See Construction, statistics.)
Costs. (See Construction, costs.)

CRANES

Locomotive cranes designed for gasoline and diesel power (Link-Belt Co.) n774
Locomotive cranes utilize gasoline engine power (Thew Shovel Co.) n*812
Railway work-train use (Harnischfeger Sales Corp.) n*1013
Traveling shop crane fabricated from aluminum alloy (Alliance Machine Co.) n523
Credit reform demanded in time-payment sales. S. M. Williams 535
Curbs. (See Highway construction; Pavements and paving.)
Cutting torch. (See Welding and cutting.)

D

DAMS

Arch:
Lake Pleasant, multiple-arch dam. (See Dams, Lake Pleasant.)
Waterville, N. C., design and construction of high arch dam *894
Aswan dam, Egypt:
Engineers recommend raising, n37; correction n80, *278
Government orders construction of the addition n398
Boulder dam project. (See Colorado River.)
Cobble mountain dam, progress 242
Concrete:
Pardee dam, high-speed construction methods. C. E. Grunsky, Jr. *258
(See also Dams, Arch.)
Construction and design. T. Merriman *213
Coolidge dam, Gila River, Ariz.:
Aerial tramway for construction haulage. M. P. Morrison *856
Progress 239
Weighted gate closes opening *386
Design:
High dams, good practice in. R. Ryves l324
Diablo dam, for Seattle power, progress 238
Earth:
Balsams dam, failure caused by erosion of rip-rap n*885
Lafayette dam, reconstruction advised e167, *190
Largest high earth dam, semi-hydraulic fill, Saluda River, S. C., e657; A. R. Wellwood *669
Rolled-fill earth dam, Philbrook Creek, constructed without shrinkage, F. A. Lammiman *388
Exchequer dam:
Laying out a curved spillway for concreting. D. McFarland j*194
Experiences with dams e207
Failures:
Balsams earth dam, Mohawk River, N. H., failure caused by erosion of rip-rap n*885
Lafayette dam. (See Dams, Lafayette.)
New Hampshire, Mohawk River dam gives way e737, n770
Safety, a public responsibility e737
St. Francis dam:
Rebuilding power plant No. 2 ..... *494
Standing section destroyed ..e814, n845
Year's work in arbitrating damage claims 880
Lafayette dam, Calif.:
Airplane view n*727
Consulting board finds slump due to plasticity e167, *190
Modified completion recommended ...n116
Lake Pleasant multiple arch dam:
Arizona grants emergency appropriation n609
Cutting down spillway recommended..n156
Defects cause concern n116
Reconstruction advised e167, *190
Spillway cut rushed to safeguard dam, e257, 275; B. F. Jakobsen...l563
Muskegon River at Oxbow, Consumers Power Co. seeks to construct earth dam n847
North Bowman dam, Calif., repair of breaks in outlet tunnel of rock-fill dam, e891; F. H. Tibbetts *904
Owyhee dam, Ore., work resumed after spring floods n*883
Pardee dam, Calif.:
Construction haulage by aerial-tramway. M. P. Morrison *856
Contraction-joint treatment. F. W. Hanna *457
Philbrook Creek, Calif., rolled-filled earth dam constructed without shrinkage. F. A. Lammiman *386
River Nidd, Harrowgate, England, large water-supply dam n*80
Rock-fill:
North Bowman dam, repair of breaks in outlet tunnel, of rock-fill dam, e891; F. H. Tibbetts *904
Rock Island project, preliminary permit granted n849
Safety of dams, A.E.C. committee n724
Saluda River, S. C.:
Design of 11,000,000-yd. earth dam for power project, e657; A. R. Wellwood *669
Capacity of the spillway. W. H. Holmes l844
Progress 240
San Gabriel dam, construction camp and program. E. C. Eaton *1030
San Gabriel dam, work under way 238
Spillways:
Laying out a curved spillway for concreting. D. McFarland j*194
Tests and designs of Bonnet Carré spillway 284
Spillways. (See also Mississippi River.)
Starved Rock dam, Illinois River, gates are novel feature. S. Van Pelt *778
Stewart Mountain project, Ariz., first concrete poured n726
U. S. reclamation dams, progress..... *238
Waterville, N. C., design and construction of high arch dam for power development *894
Davis, A. P., resigns from Mokelumne project n769
Day labor. (See Construction, day labor.)
Detritor. (See Sewage-works.)
Docks. (See Wharves and docks.)
Doors:
Inward-opening exit doors, danger of...e813
Drafting. (See Drawing and drawings.)
Draglines. (See Excavating machinery.)

DRAINAGE

Channels closely spaced under concrete lining of reservoir j*687
Drain tile placed without ditching by tractor. H. A. Bowers j684
Land drainage work in Arkansas. H. W. English and A. S. Fry *1026
Missouri court upholds right to form drainage districts n156
New York State, amendment to law ...n610
Salt drainage from irrigated land 584

DRAWING AND DRAWINGS

Fast and accurate method of reproducing. C. K. Clausen j*685
Protecting tracings. M. Schwam j*686
Standards for drafting-room practice issued by A.S.M.E. n82
Dredges and dredging:
Diesel-electric dipper dredge launched ..*185
Hydraulic dredge loads hopper barges e695, *717
Drexel Institute dedicates new engineering building n768
Drills and drilling:
Hydraulic testing drill for foundation work (N. Y. Eng. Co.) n*774
Jackhammer drills, new line (Ingersoll-Rand Co.) n*329
Dry docks:
New York City, six ship repair companies combine n402

E

EARTH WORK

Blasting a trench in swamp mat for highway fill. J. A. Johnston *417
Blasting settles road fills in muskeg, e777; P. W. Riedesel *788
Levee plant, methods and prices, Mississippi River. A. M. Shaw *296
Tables give volumes required for fills from end areas. D. W. Webster....j*1041
(See also Excavation; Highway construction; Levees.)
Earthquakes:
Landslides and earthquakes 299
Edgerton, Major G. E., transferred to West Point n608
Education:
F. C. Austin establishes fund to train students as executives n398
Engineering. (See Engineering education.)

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Eiffel, Gustav, centenary, France to celebrate *763
Electric power possibilities for construction equipment. R. C. Muir *542
Electric power transmission:
Oval welded poles for high-tension lines used in Switzerland 151
Electric railways:
Work in 1928 638
Electrification:
Railways. (See Railway electrification.)
Electricity, production in 1928 419

ENGINEERING

Construction projects of 1928; a pictorial survey *221
Foreign works, study valuable e855
Highway. (See Highway engineering.)
Increasing influence of engineering mind. e256
Major projects of 1928, status *238
Modern pioneering e165
Planning for the future e125
Rising base level e775
Survey of progress during 1928 ..... e205

ENGINEERING EDUCATION

Making engineers effective. S. J. Williams 744; F. Lavis 1843; G. F. Whittemore 1918
Massachusetts Institute of Technology gives co-operative course in railroad operation n400
Mechanics Institute, Rochester, N. Y., co-operative construction course n363
Water-works short school, Texas n248
Engineering ethics:
Observations on contracts for public work. H. Tucker 1195
Passaic Valley sewer builder wins claim based on false borings e53, c6
Engineering Foundation:
H. H. Porter elected chairman n445
Engineering frauds. (See Engineering ethics.)
Engineering Institute of Canada:
Meeting (annual), Hamilton, Feb. 13-15; C. H. Mitchell elected president n*326
Engineering law:
Some recent points decided in engineering law; reviewed by H. Braasch 388, 799
Engineering research:
Engineering Foundation announces gifts for research e853, n887
(See also Highway research; Hydraulic research; etc.)
Engineering societies:
Meetings and exhibits e332
Rotating meetings e891
(See also names of societies.)
Engineering terms, abbreviations, tentative standard published 171

ENGINEERS

Compensation:
Engineer's status and salary. A. W. Consoer 1648
Engineers Club of San Francisco has Hoover inauguration celebration n401
Lamont, R. P., engineer in Hoover's cabinet e369
Licensing:
California association proposes licensing n81
Has registration accomplished anything? C. J. Ullrich 229
New York State board, two resign. n650; e697
Oregon board decides to test law n883
Outside the law; practising without a license e775
Strengthening the profession e697
Mexican cabinet has engineer, J. S. Mejorada n*41
Misrepresentations. (See Engineering ethics.)
New responsibilities restated e975
New York subway, technical men discharged n1008, e1016
Opportunities in U. S. Civil Service 469
Positions open n770
Progress of the profession e212
St. Louis engineers entertain members of Missouri legislature. E. E. Wall 1285
Shaping industrial policies e489
U. S. public buildings program needs engineers n566
Engines:
Air-cooled, two-cylinder model ("New Way" Motor Co.) n*729
Diesel engine, new type features low pressure fuel injection (Page Engineering Co.) n*693
(See also Motors.)
Entenman, Paul M., an appreciation. R. Ridgway 1502
Equipment. (See Construction, equipment; Highway equipment; Railway equipment; Tools.)
Erosion:
Beach erosion, army engineers to study .. 836

EXCAVATING MACHINERY

Bucket loader adapted to excavating work (George Haiss Mfg. Co.) n*43
Bucket excavator uses four lines (Barber-Greene Co.) n*42
Convertible excavators in 5- to 15-ton sizes (Browning Crane Co.) n*84
Diesel excavator, 3½-cu.yd. (Harnischfeger Sales Corp.) n*291
Draglines, for Mississippi levee work, an appraisal. e976; J. C. French *983
Half-yard, full revolving (Bay City Dredge Works) n*330
Tower machines for levee construction. e658; W. L. Thompson *682
Trenching machine, larger size (Parsons Co.) n*43
(See also Buckets; Shovels.)
Excavation:
Backfilling with pulverized slag, pavements, Pittsburgh. W. C. Hawley j1041
Chicago River, new million-yard channel e695, *717
Well points as an aid to excavation. W. H. Caldwell 1515
Excavation. (See also Drainage; Earth work; Foundations; Sewer construction; Tunnels and tunneling.)
Exhibits. (See Museums.)
Explosives:
Explosives and charges for blasting road fills in muskeg e777; P. W. Riedesel. *788
Explosions:
Cleveland clinic, ignition of X-ray films. e813, n845
Neglect of cautions the cause e1015, *1037
(See also Blasting.)
Federal Power Commission, F. E. Bonner, secretary n1045

F

Ferries:
San Francisco automobile ferries authorized to merge n610
Fisher, Ross, McDonald & Kahn, Inc., retains original name n769
Five-day week e739

FLOODS

Alabama, worst flood, March 14-15, 1919. H. W. Richardson n*517
Arkansas organizes levee and drainage board n767
Birmingham, Ala., contemplates protective measures n690
Cheyenne, Wyo., cloudburst causes flood n*1008
Detroit officials blamed flooding of land n726
Florida and Vermont, flood problems e206
Florida changes system e975
Florida enacts bills for flood control and drainage n919
Florida, Lake Okeechobee flood-control:
Discussed by Army engineers n197
Florida seeks federal control n38
Plan recommended by Gen. Jadwin .. n248
Georgia and Alabama, record heights of floods e449, n480
Georgia, highways suffer little damage .. n444
Illinois River flood-control program n286
Kansas, November, 1928, flood flows. J. B. Spiegel *877
Miami flood-protection works tested by high flood e577; C. S. Bennett *599
Mississippi River. (See Mississippi River.)
Orange Co., Calif., plan before voters .. n1048
Quincy, Ill., flood continues n726
River survey bill for flood control passes Senate n198
Rondout Creek, N. Y., data of a cloudburst flood. E. A. Van Deusen *389; correction 1607
South Texas damaged n921
Tennessee and Kentucky, serious damage .. n519
Tennessee roads, flood damage 663
Vermont committee recommends power reservoirs for flood control e51, 72
(See also Drainage; Levees; Rainfall and runoff; Rivers.)

FLOORS AND FLOORING

Concrete and asphalt floors, steel armor unit for (Blaw-Knox Co.) n*403
Laboratory tests of floor materials 624
Precast floors of novel design in two buildings. M. Miller *493
Flumes:
Design and practical test of integrating flume meter. J. W. Ledoux *428
Venturi flume, 40-ft. reinforced-concrete improved 1001
Forests:
Forest areas utilized for public water supplies. P. P. Phillips 713
Forms. (See Concreting, formwork.)

FOUNDATIONS

Cast-in-place concrete pile work in quaking clay, Washington, D. C. e814; N. A. Melick *823
Continuous foundation beams, analysis. N. B. Green 1607
Soil mechanics:
Electrical subsoil exploration and the civil engineer. I. B. Crosby and S. F. Kelly *279
Geophysical foundation study by explosion-wave method. A. T. Parsons *273
Heaving under frost action, research. 907
Soil pressure and continuous foundation beams. N. B. Green 1607
Subgrade lessons e891
Underpinning:
Nassau St. subway, N. Y., supporting foundations exposed during construction. L. White 1018
Unusual design for tall steel building. Detroit. W. S. Wolfe *703
Well points as aid to excavation. W. H. Cadwell 1515
(See also Bridge abutments and piers; Building construction; Dams; Excavation; Piles and piling.)
Framing. (See Building design, framing.)

G

GARAGES

Free public garages, one solution of street traffic. C. W. Redpath 1397
Operating company formed n291

GARBAGE AND REFUSE DISPOSAL

Chicago abandons garbage reduction plant n1048
Disposal of waste crank-case oil at garages e293, 306
Dundee, Scotland, refuse used for land reclamation 903
Inadequate service e371
Incineration:
Brooklyn, N. Y., three plants of 500 tons capacity. E. L. Collins *862
Refuse can in shape of tree trunk j*77
New Jersey granted permission to sue New York to stop pollution of beaches e855, n883
Progress during 1928 ..... e208
San Francisco scavengers form city sanitation guild n*364
Gas:
Indicator to combustible gases (Union Carbide Sales Co.) n*523
Natural gas pipe line from Louisiana to Georgia n808
Generator shaft sprung, straightened by improvised field methods j*513
Geological Survey celebrates 50th anniversary n521
Good, J. W., named chairman of Federal Power Commission n691
Government ownership:
Oklahoma, state-owned cement plant proposed n521
Gow, C., to enter government service n*365

GRADE CROSSING ELIMINATION

Dangers of grade crossings emphasized by Nat'l Conf. on Street and Highway Safety n1049
(See also Railway track and trackwork, crossings.)
New York Central opposes Syracuse separation plan n727
New York Public Service Commission reports n326
Granite, huge block quarried, Stonington, Me. 458
Gravity tests, submarine, valuable results .. 584
Great Lakes:
Diversion of water. (See Chicago diversion of water from Great Lakes.)
High water shown by Canadian records .. n809
Gravel:
Research on proportioning gravel aggregate 34

GROUTING

Asphalt grouting used in shaft sinking, Texas Salt Co. 375
Bowman dam, grouting supplements repair of outlet tunnel e891; F. H. Tibbetts *904
Cement grout to eliminate hair-cracks in concrete paving. W. A. Stacey j764
Tunneling a water-bearing fault by cementation, Shannon mine, Ala. e853; J. S. Crawhall *874
Guniting. (See Cement gun.)

H

Harbors. (See Ports and harbors.)
Hardness testing machines (Hardometer) developed in England (Thos. Firth & Sons) n*889

HIGHWAY ACCIDENTS

Licensed drivers reduce accidents. A. B. Barber 1476
San Francisco reduces vehicular traffic fatalities 642
Highway associations. (See American Association of State Highway Officials; Association of Highway Officials of the North Atlantic States; Pan-American Congress of Highways.)

HIGHWAY CONSTRUCTION

Bituminous roads:
Finishing machine lays asphalt in Oklahoma. D. A. Wood *376
Laying rock asphalt in cold weather. W. Speed *712
Machine-finished asphalt paving adopted in California. C. S. Pope .. *623
Blasting a trench in swamp mat for highway fill. J. A. Johnston *417
Blasting settles road fills in Minnesota muskeg e777; P. W. Riedesel *788
Brick roads:
Brick pavement construction. G. S. Schlesinger *20

Concrete roads:
Curing, better, raises core strengths of concrete pavement base. M. D. Wilson *827
Lost-time history of a road job. D. V. Purinton 757
Reinforcing steel supported by device (Concrete Steel Co.) n*44
Two mixers work side by side 307
Finishing:
Hand and machine-spread asphalt costs compared e450; J. F. Tuttle.. *471
Gravel:
Advances in construction. S. Walker.. *17
Shoulders, building by machine. A. H. Hunter ..... l 881
Surfacing:
Premixed oil and aggregate used..... *986

HIGHWAY DESIGN

Joints:
Metal tongue-and-groove joint eliminated in wide pavements in Illinois. G. H. Baker j*360
Increased efficiency to meet volume requirements. C. M. Hathaway *25

HIGHWAY ECONOMICS

Bonds:
Iowa bond issues for paving declared illegal n289, n444
Recommended for Texas n287
California's biennial road budget..... 192
Federal aid:
Bill to triple appropriation..... n769
Mileage in 1928 432
To get $73,125,000 from Agricultural Dept. n37
Future road financing..... e2
Gasoline tax:
Diversion of funds..... e125
Gas tax changes..... e256
Illinois again proposes tax..... n286
New York State now has tax law..... n649
Money for roads, sources of increased funds. T. R. Agg..... 13

HIGHWAY ENGINEERING

Maryland, qualifications for country roads engineer n520
Michigan Highway Engineering Conference, annual meeting, Feb. 20-23.... n250
Rocky Mountain conference at University of Colorado, Jan. 24-25..... n38
University of Michigan, conference on highway engineering (annual), Feb. 19-22 ..... n120

HIGHWAY EQUIPMENT

Asphalt street repair unit for small cities (Chausse Oil Burner Co.)..... n*388
Finishing machines:
Asphalt laid with concrete-finishing machines in Oklahoma. D. A. Wood.*376
Graders:
Dispenses with usual center circle (Minneapolis Steel & Machinery Co.) n*655
Grader attachment for tractor (Rome Mfg. Co.) n*85
Heavy-duty grader and scarifier (J. D. Adams Co.) n*122
Machinery's part in roadbuilding. L. Gardiner *29
Machines and management..... e3
Maintainer, high-speed, for earth and gravel road, New Mexico. R. W. Bennett j*1039
Paver, automatic operations on new 27-E paver (Koehring Co.)..... n*486
Road shows. (See Road shows.)
Roller, motor, with single lever control (Ames Iron Works)..... n*368
Shoulder-building machine. A. H. Hunter l*881
Spreader, trailer-type (Highway Service, Inc.) n*43
Tandem roller, new heavy-duty motor (Buffalo-Springfield Roller Co.)..... n*42
Templet, reversible, for changing subgrade profiles. C. J. Dunston..... j*358

HIGHWAY MAINTENANCE

Berms and careless drivers. P. J. Freeman ..... l 195
Concrete roads, reconditioning. C. R. Waters 915
Gravel roads, experiments with oiling in New Mexico. R. W. Bennett..... *34
High-speed maintainer for earth and gravel road. R. W. Bennett..... j*1039
Road patrols shortened in Wisconsin... 499

HIGHWAY MARKING

Strict alignment of travel increases street capacity n499
White strip on edges proves aid to traffic j*686

Highway research:
Co-ordinated research..... e3

HIGHWAY TRAFFIC

Brake systems and road capacity. A. M. Candy ..... l 324
Cleveland regional area, basic highway data obtained by survey..... e125, *152
Holland tunnel, electric traffic counter operated by shadows 914
Radio used for emergency traffic control, Lincoln Highway bridge..... 31
Surveys:
Cleveland regional area, basic data obtained e125, *152
What we know of traffic and what it foretells. J. G. McKay..... 10
(See also Street traffic.)

HIGHWAYS

Alabama, progress..... 455
Arizona grants pay increases to dept. engineers n1010
Arizona preparing plans for large road program n157
Beautification, roadside, e1016; E. N. Hines *32
Bituminous roads and pavements. P. Hubbard *19
California, biennial road budget..... 192
California, premixed oil and aggregate for surfacing *986
Concrete improvements. L. S. Trainor.. *16
Control, centralization of..... e412
Engineering News-Record, special highway issue. H. G. Shirley..... l 324
England to build superhighway, Liverpool to Manchester..... n921
Good roads lead to higher values of farm land. G. R. Chatburn..... *22
Graphic record of highway growth.... *8
Gravel:
Experiments with oiling, in New Mexico. R. W. Bennett..... *34
How road types may be improved; a symposium *16
Los Angeles, Long Beach Blvd., multiple-lane paving job. G. W. Jones..... *506
Lost-time history of a concrete road job. D. V. Purinton..... 757
Louisiana, L. R. Ames resigns from highway dept. n919, e934
Louisiana, new head for highway dept..n1009
Macadam:
Crushed stone roads. A. T. Goldbeck. *18
Maryland department to be reorganized..n119
Maryland governor proposes large road program n770
Mileages:
Alabama, progress in 1928..... 455
Concrete road yardage, Jan.-June, 1929 ....n291, s523, n654, n773, n972
Illinois, hard roads completed in 1928.n156
More attractive roads. E. N. Hines *32, e1016
Mount Vernon Memorial Highway plans.n402
New era of highway development..... e1
New Jersey, W. G. Sloan, chief engineer, resigns n922
New York City, first contract for Hudson River elevated highway..... n770
New York state road and bridge budget.n196
North Dakota unifies control of highway Dept. n807
Our present road system; how it was created and how it grew. T. H. MacDonald. *4; correction, H. G. Shirley l 324; T. H. MacDonald..... l 324
Road builders aiming at higher business standards, N. Y. State Highway Chapter n482
Protecting the highway from politics, case of Louisiana..... e934
San Francisco building wide boulevards leading to state highway routes e165; L. B. Cheminant *168
Toll road, New York-Boston, proposed.. n37
Trends in highway construction..... e210
Virginia starts its 1929 program..... n325
Wide roads a necessity in war-time. R. S. Tilden..... l 397
Widths, e331, e370; R. S. Tilden..... l 397
Wisconsin shortens road patrols..... 499
Highways. (See also Highway construction; Highway maintenance; Pavements and paving.)
Hinds, Julius, U. S. Bur. of Reclamation, goes to Los Angeles Water Dept..... n564
Hoists and hoisting:
New alloy steel used (Novo Engine Co.) n*1013
Two-speed slackline excavator hoist, new (Street Bros. Machine Works)....n*1051
Hoover, Pres., John Fritz medal presented.n723
Hopper, new, weighing, uses all-steel scale (Butler Bin Co.)..... n*655
Humphrey, R. L., an appreciation. G. S. Webaser ..... l 35
Hutchinson, E. C., to join M. W. Kellogg Co., New York..... n*119
Hydraulic gates:
Tide gate for sewers and drains flowing into tide waters. A. R. Matthews...j*765
(See also Dams; Hydro-electric power plants; Reservoirs.)

HYDRAULIC RESEARCH

Freeman scholarship to be awarded July 1 ..... n920

Laboratories:
Historical notes. J. D. Shannon..... l 607
Laboratory bill doomed..... n249, n401
National hydraulic research laboratory needed e52; B. R. Van Leer..... *68
Use of laboratory; lectures by German professor n119
Our future in hydraulic research..... 71

HYDRAULICS

Desirability of keeping rivers crooked e412; R. N. Towl..... *433

Flow measurements:
Design and practical test of integrating flume meter. J. W. Ledoux..... *428

HYDRO-ELECTRIC POWER

Applications and permits:
Chats Falls Co. gets permit for Ottawa River development n919
Columbia River at Rock Island, permit sought n1011
Dexter L. Cooper, Inc., seeks license for Fundy tidal power project.... n887
Holston River Power Co., three projects in eastern Tennessee..... n120
Passamaquoddy Bay, time extension to Dexter P. Cooper Co. denied..... n691
Priest Rapids, Wash., permit sought for project n808
St. Lawrence River, Beauharnois Co. granted license..... e449, n483
Boulder dam. (See Colorado River.)
California's power 20 per cent developed. 499
Canada, progress, 1928..... 996
Canada rejects project paralleling St. Lawrence River n771
Columbia River, power sites under consideration n119
Cumberland Falls project meets opposition 119
Cushman project No. 2, bids opened, April 8..... n516
Maine to vote on export of power..n688, e737
New York power companies to consolidate n80
New York State, power prospects..... e53
St. Lawrence River, development recommended n443
Skagit project, commission to advise Seattle city council recommended..... n886

HYDRO-ELECTRIC POWER PLANTS

British Columbia Electric Ry. Co., plant at Ruskin, Stave River, contract let.. n522
Centralia, Wash., city to build plant.... n522
Chippewa Falls, Northern States Power Company, second plant..... e87, *106
Chippewa Falls, Wis., rapid winter construction *311
Conowingo project, Susquehanna River, progress 240
Disposing of anchor ice..... e125, 139
European engineers inspect U. S. plants.n365
Osage River, Bagnell, Mo., work to be started soon n726
Ruskin plant, British Columbia Electric Ry. Co. orders unit..... n808
San Francisquito power house No. 2:
Rebuilding after dam break..... *494
Sprung generator shaft straightened by improvised field methods..... j*513
Shannon, River, progress..... n*1010
Turbines. (See Turbines.)
Winnipeg River, Northwestern Power Co. to start project at Seven Sisters Falls.n 57

I

Ice:
Canada to burn out ice by thermit process n158
Ice jam carries away bridge..... n483
Illinois Society of Engineers, meeting (annual), Chicago, Jan. 23-25..... n248
Index numbers of cost and volume. (See Construction, statistics.)
Industrial wastes:
Enter a new era..... e777
Oil-field waste-disposal problems, Calif. e776, *795
International City Managers Association, changes in n1047
Iowa Engineering Society, meeting (annual), Des Moines, Jan. 30-Feb. 1..... n248
Irrigation. (See Land reclamation.)
Isaacs, J. D., So. Pacific engineer, death..n*725

J

Jadwin, Gen. Edgar, honored by Terminal Engineers n80

JOINTS

Column joints, weld test results...e369, *385
Contraction-joint treatment in the Pardee dam. F. W. Hanna..... *457
Pipe. (See Pipe and pipe lines.)
Pavement. (See Pavements and paving.)
Poured expansion joints, collapsible installing unit (Electric Welding Co.) .n*448
Joists:
Steel joist specifications completed for use n654
Jones, E. L., head of Geodetic Survey dies.n809

L

LABOR

Chicago steel erectors strike..... n1045
Five-day week e739
Labor's part in industry..... e89
Lockout in N. Y. building trades stayed by Supreme Court order..... n803
Use of local, urged on Federal work.... n727
Lamont, R. P.:
Engineer in Hoover's cabinet..... e369
Heads conference on Highway Safety..n691

Land:
Burning stumps by vacuum cleaner draft cheapens land clearing j*360
Excess condemnation to be studied..... 313

LAND RECLAMATION

Arkansas, extensive drainage work. H. W. English and A. S. Fry..... *1026
Columbia Basin project before the House n121
Dundee, Scotland, refuse used for reclamation 903
Further federal reclamation opposed...n197
India, irrigation in..... 492
Irrigation, world wide survey..... 995
Mexico, recent irrigation developments. e449; V. Saucedo..... *453
New Mexico plans irrigation project at San Juan River..... 73
Nile River silt, agricultural value. E. McK. Taylor..... 993
Payments:
Settlers' payment increase..... 62
Salt drainage from irrigated land, new facts on 584
U. S. reclamation dams, progress *238
Landslides:
Earthquakes and landslides 299

LEVEES

Mississippi River, levee construction methods and plant. e125; C. S. Hill..*142
Mississippi levee work, draglines, e976; J. C. French..... *983
Observations on levee plant, methods and prices, Mississippi River. A. M. Shaw *296
Tower machines for Mississippi levee construction. e658; W. L. Thompson..*682
(See also Mississippi River.)
Lighting institute, Westinghouse, opened, New York e891, n921
Lightning:
Damages concrete road, Orange Co., N. Y. n1047
Explodes loaded holes at Bull Run dam. 982
Locks:
Illinois River, building a lock and dam at Starved Rock. S. Van Pelt *778

LOCOMOTIVES

Industrial:
Diesel locomotive in 60-ton size (Fate-Root-Heath Co.) n*404
Gas locomotive designed for performance (Cincinnati Car Corp.)....n*1013
To be built by Cincinnati Car Co.... n84
20-ton six-wheel gear-and-side-rod drive (G. D. Whitcomb Co.) n*329
Motors equipped with roller-bearing armatures, Cascade tunnel..... n485
New engines of unusual size and design..*351
Lubrication:
New high-pressure lubrication fitting (Alemite Mfg. Corp.)..... n*330

M

McGraw-Hill Company acquires *Aviation* magazine e369, n399
Machinery:
Construction. (See Construction, equipment; Highway equipment.)
Sand and gravel plant equipped with anti-friction bearings n773
Manholes:
Sewer manhole built of radial concrete blocks *133
Ventilator for j*193
Mantell, J. J., to Americanize Chinese railways n608

MAPS AND MAPPING

Aerial:
Alaskan mapping under way...n772, 873
Topographic map, instrument for interpolating contours. C. E. Slaughter j*764
Marston, Anson, elected president of A.S.C.E. n*117
Maryland:
Loans for improvements asked by Governor n79
Public Service Commission, H. C. Wolf resigns as chief engineer..... n691
Road board sues to recover stolen funds n809
Roads Commission, H. D. Williar, Jr., chief engineer n362
Mine, Shannon, Ala., high-pressure grouting of water-bearing fault. e853; J. S. Crawhall *874

MISSISSIPPI RIVER

Behavior of rivers in alluvial flood plains. e412; R. N. Towl..... *433
Channel, survey authorized..... n968
Floods and flood control:
Associations answer Secr'y Good...n1046
Bonnet Carré spillway:
Bids to be opened July 10..... n1011
Contracts let. n922
Guide levees 300 ft. wide prescribed n691
Needle dam decided upon..... n483
British engineer, G. Clarke, to inspect flood-control works 898
Estimate of tower machines for levee construction. e658; W. L. Thompson *682
First of the Mississippi floodways, New Madrid, in Mo. e815; W. W. DeBerard *816
Flowage right payments..... n82
Fuse-plug raising decision refused...n1049
Jadwin plan condemned by west bank interests. n198
Levee work, draglines, an appraisal. e976; J. C. French..... *983
Mississippi River flood control—C. S. Hill
I—Volume of work and construction conditions. e88, *90
II—Levee construction methods and plant e125, *142
III—Revetment construction plant and methods e166, *182
Missouri floodway, no contracts pending further investigation. e853, n883, n887
New Madrid-Bird's Point spillway, injunction sought. n1009
New Madrid spillway, condemnation suits. n969
New Madrid spillway, Mo., injunction to stop work refused..... n883
Observations on levee plant, methods and prices. A. M. Shaw..... *296
Progress during 1928..... n205
Quincy, Ill., high flood-stage..... n726
Review of plans, the president's problem. e933
Second review of flood control plans urged. n809
Threatening levels. n845
Year's work reviewed..... n82
Mississippi River Commission:
Col. Graves appointed member..... n157
Mitchell, C. H. elected president of Engineering Institute of Canada. n*326
Motion Pictures:
Film shows arc welding in manufacturing (Lincoln Electric Co.)..... n122

MOTOR VEHICLES

Accidents. (See Highway accidents.)
Automobiles:
Operating costs for passenger autos, C. W. Raynor..... l 648
Brake systems and road capacity. A. M. Candy ..... l 324
Buses:
Railroad bus terminal in Chanin Building, New York..... *743
Trucks:
Eight-wheel drive unit with crawlers (Browning Crane Co.) n*694
Heavy duty truck body tapers from front to rear (Mack Trucks, Inc.)..*486
New bodies developed for concrete haulage. n569
Truck for house-connection gangs, Richmond, Va. G. W. James, Jr. *1025
Truck with three-way dump body (Dodge Bros.) n*44

MOTORS

Cascade tunnel locomotives equipped with roller-bearing armatures..... n485
Heavy-duty motor roller (Buffalo-Springfield Roller Co.)..... n*42
Heavy-duty motors of new design in series (Continental Motors Corp.)....n*43
Mulholland, William, retained as consulting engineer by Los Angeles. n364
Municipal Government:
Chicago, council-mananger plan considered. n610
City manager act unconstitutional in Kentucky. n969
Museums:
Mechanical engineering exhibits, Stevens Institute 179

N

National Association of Railroad Tie Producers, meeting (annual), April 23-25..n612
National Drainage Congress, meeting (annual), Memphis, Feb. 19-21. ..... n362
National Electric Light Association, convention, Atlantic City, June 3-7..... n969
New England Sewage Works Association:
Formed at Hartford, April 23. ..... n689
Meeting, 1st, April 23. ..... n566

NEW ENGLAND WATER WORKS ASSOCIATION

Meeting, Feb. 13; letter ballot upholds committee on cross-connections..... n327
Meeting, April 10; tunnels and meters discussed. n651
Meetings, special and annual..... n566
Past presidents attend meeting, March 13. ..... n481
Resolutions on cross-connections. R. S. Weston and E. S. Chase..... 178
New Jersey to file suits against New York City. n805
New Jersey Sewage Works Associations:
Meeting (annual), March 22-23, 1929 e487, n521
New York Bridge and Tunnel Authority:
Bill introduced in Legislature..... n325

NEW YORK CITY

Dismissal of technical men ends long controversy e1016, n1047
Multiple dwelling act:
Engineers to test n968
Held unconstitutional n1045
Public improvement program. n483
Rapid transit contracts for 1928..... n81
Sanitary commission proposed....e449, n480
Bill dies in legislature..... n565
Sanitation, unified..... e449, n480
Subway fare case, Supreme Court refuses to pass upon..... e617, 641
State courts must hear subway fare pleas e577, n609
Transit Commission, D. L. Turner to resign n1009
West Side improvement plan:
Elimination of N. Y. Central trackage assured n919
New York Central offers plan..... n156
New York Port Authority:
Asks control of vehicular tunnels..... n80
Highways not port facilities..... e295
Murray, J. F., appointed member..... n81
New York State Sewage Works Association:
Organized May 4, 1929..... n650, n805

NIAGARA FALLS

Changes in flow over Falls in prospect. e255, *281
New York State has rights protected in treaty n286
Preservation and diversion of water....e207
Remedial works to be constructed..... n38
Treaty opposed by Chicago interests..... n327
Noise:
Money value of noiselessness..... e88
Sound insulation studies needed..... e52

O

Ohio Sanitary District law held constitutional. n610
Oil:
Waste crank-case oil at garages, disposal and recommendations for recovery. e293, 306
Oil field engineering:
Waste-disposal problems..... e776, *795
Omaha Water Works and Sewage Conference, new name. n807
Osgood Co., Marion, O. buys oil engine plant. n925
Overproduction in industry e977

P

PAINTS AND PAINTING

Pipe coating, Bur. of Standards to test..n889
San Francisco, small steel water pipes, buggy gives painters easy access. O. G. Goldman *942
Value of coatings to prevent pipe corrosion investigated 681
Pan-American Congress of Highways:
Meeting, June 19-July 1..... n326
Postponed to Aug. 16..... n725
U. S. delegates named..... n1010
Parks:
California state parks urged..... 283
New Jersey, county park systems..... 67
Patents:
Feeding propellers on bucket loaders: George Haiss Co. wins suit against Link-Belt Co..... n729
Patten, R. S., director of Coast & Geodetic Survey n688

PAVEMENTS AND PAVING

Bituminous:
Asphalt street repair unit for small cities (Chausee Oil Burner Co.)..n*368
Hand and machine-spread asphalt costs compared. e450; J. F. Tuttle..... *471
Laying rock asphalt in cold weather. W. Speed..... *712
Machine-finished paving adopted in Calif. C. S. Pope..... *623
Brick pavement construction. G. F. Schlesinger *20
Concrete:
Allentown, Pa. cement concrete pavement opened in 48 hrs. e854; E. W. Meckley *871
Curing, better, raises core strengths of pavement base. M. D. Wilson.... *827
Evanston, Ill., paving practice. J. W. Cleveland ..... l 381
Multiple-lane paving job organized for fast work, Los Angeles. G. W. Jones *506
Yardage, Jan.-June, 1929. n291, n523, n654, n773, n972
Curb corner practice in New Bedford, Mass. ..... j 76
Joints:
Displaced aggregate decreases joint thickness. 756. ..... e775
Joint struts..... e775
Multiple-lane paving job organized for fast work, Los Angeles. G. W. Jones. *506
Street repairs by direct payment in Chicago. 31
Use and width. e331; e370; R. S. Tilden. l 397
(See also Highways.)

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Penstocks:
Big Creek 2-A, pipe line to supply water pressure under 2,420-ft. head.....n*848
Handling penstock pipe on Buck's Creek project. D. McFarland.....j*357
Philadelphia Gas Works Co. selects C. N. Lauer as president.....n769
Piers. (See Bridge abutments and piers; Foundations; Wharves and docks.)
Pile drivers and driving:
Special jet pile clears holes for wood piling. M. P. Hite.....j*364

PILES AND PILING
Cast-in-place concrete pile work in quaking clay. e814; N. A. Melick.....*823
Precast piles, 115 ft. long, used in concrete trestles of James River bridge e51.....*54
Treating the heads of wood piles.....73

PIPE AND PIPE LINES
Albany awards pipe contract for new water supply system.....n809
Asbestos and cement (Transit pipe), has many possibilities (Johns-Manville Corp.).....n693
Big Creek 2-A penstock, pipe line to supply water pressure under 2,420-ft. head.....n*848
Cast-iron:
Crystallization statement not true to facts. H. L. Whittemore.....l1007
Specifications not yet revised.....e51
Concrete:
Reinforced-concrete sewer pipe, trouble in Oklahoma.....280
Spun pipe conveys water supply under 145-ft. head. H. Hawgood.....*1023
Corrosion of underground pipes, value of coatings investigated.....681
Denver calls for bids on 8-mile water conduit.....n199
Electrolysis and soil corrosion of water pipe.....n40
Field-welded pipe hung on canyon walls carries water supply. C. J. Ullrich..*465
Freezing, automatic device prevents...n*974
Gas pipe line from La. to Georgia.....n808
Intake conduits for water-works of Hamilton, Ont.....*787
International pact among iron pipe makers, negotiations.....n851
Joints:
Asphalt product, new, for sewer pipe joints (Standard Oil Co. Indiana)..n774
Dry-cement-caulked, spun concrete water pipe. H. Hawgood.....*1023
Natural gas line, St. Louis to Louisiana.....n196
Penstock pipe, handling, on Buck's Creek project. D. McFarland.....j*357
Power bending-machine in two sizes. Wallace Supplies Mfg. Co.....n*972
Reading Iron Co. moves to restrict price cutting.....n447
Service pipe, installing in quicksand. C. P. McGrath.....963
Steel and Armco ingot iron, bids in Detroit.....n481
Steel, riveted, laying in the Greater Vancouver Water District, 935; F. C. Stewart.....*960
Water pipes, small steel, buggy gives painters easy access. O. G. Goldman.*942
Water-power conduit, sluicing debris from clogged tunnel.....959
Wood stave pipe, anchoring in sliding ground. S. C. Watkins.....966
(See also Aqueducts; Penstocks; Sewers; Water mains.)
Pittsburgh, Pa.:
Charter draft for consolidated city e489, 496
Simplified charter for consolidated city becomes law.....n725
Poles:
Building a safe gin pole.....j*194
Oval welded, for high-tension lines....151

PORTS AND HARBORS
Duluth-Superior harbor improvement projected.....n399
Montreal, improvements authorized.....n883
Power:
Development of power generation.....e206
Power, the source of modern civilization. e206; G. A. Orrok.....*217
(See also Electric power; Hydro-electric power; Steam power.)
Power units:
Diesel-powered construction equipment, economics of. L. H. Morrison.....*532
Public health:
New York State, amendments to laws...827
Public improvements:
Maryland to spend $6,361,900.....n650
Public utilities:
Utilities and public relations.....e617
Valuation:
Relative values of public utility systems. C. F. Lambert.....*634

PUMPS AND PUMPING
Centrifugal:
Detroit, water-works, temporary motor-driven pump. M. F. Wagnitz..*832
New portable, with 3-in. discharge (Penn. Pump & Compressor Co.)..n*655
New, three sizes (Chain Belt Co.)..n*448
Centrifugal and deep-well pumps draw from one well, Kalamazoo, Mich. E. E. Norman.....*956
Non-clogging pumps in three types (Economy Pumping Machinery Co.).....n*972
St. Louis, Howard Bend station, new unit.....n*972
Portable, small, delivers 250 g.p.m. (Evinrude Motor Co.).....n*403
Portable sump pump operated by outboard motor (Johnson Motor Co.)..n*329

R

Radio, newest aid to navigation.....e165
Radio used for bridge traffic control.....31

RAILWAY CARS
Automobile-type inspection car (Buda Co.).....n*889
Car-washers in use by steam and electric railways.....*503
Long gondola cars developed to transport steel.....1032
Railway consolidation plans.....e697
Railway construction:
New lines and extensions in 1928.....278
Unusual activity in 1928.....352
Railway electrification:
Lackawanna R.R. to purchase power..n1008
Railway equipment:
Exhibition at Chicago.....n447

RAILWAY MAINTENANCE-OF-WAY
Ballast-cleaning machine on the Pennsylvania R. R.....*131
Welding worn rail ends in track. Canadian Pacific Ry.....719
Railway mowing machine with vertical adjustment (Fairmont Ry. Motors, Inc.).n*926

RAILWAY OPERATION
Expediting freight train movements, Rock Island road. e855; C. A. Morse.*864
New express plan.....n40
Safety division created by Calif. R. R. Commission.....n807
Railway rates:
Freight rates on lumber established by I.C.C.....n400
Joint through rail-and-water rates for barge line traffic.....e657
Railway signals and train control:
Automatic:
Pennsylvania and Erie systems install devices.....n895
Speed control device.....e739

RAILWAY TERMINALS
Engine:
Fort Worth, Tex., terminal and shops of Texas & Pacific Ry.....*420
Portsmouth, O., enlarged freight yard and terminal for Norfolk & Western Ry.....*1033
Freight:
Fort Worth, Tex. yard, single-hump, Texas & Pacific Ry.....*63
Yards, single hump.....e332
Montreal terminal plans before Canadian parliament. n402.....n726
Norfolk, Va., terminal properties sought by Norfolk & Western Ry.....n651
Passenger:
Argentine station has unique cantilever concrete roof. O. Gottschalk, j*1089
Boston Back Bay union station, petition rejected.....n119
Boston & Maine R.R., North Station, modern structure including coliseum. W. E. Belcher *339; correction,.... 472
Boston, North Station, progress.....242
Bus terminal in Chanin Building, New York.....*743
Cleveland, new terminal not to be used by W.&L.E.....n157
Cleveland union terminal, progress.. 240
Cleveland, Wheeling & Lake Erie ordered to abandon station.....n197
Los Angeles to connect all railroads with a union terminal.....n564
Omaha to have union station.....n726
Paris, Eastern Railway terminal to be enlarged.....93
Paris stations enlarged for heavy traffic.....918
Philadelphia, new facilities.....241

RAILWAY TRACK AND TRACKWORK
Ballast:
Cleaning ballast by machine on Pennsylvania R.R.....*130
Bolt and nut standards, proposed.....763
Crossings:
Interlocking metal plates for grade crossing (Indianapolis Switch & Frog Co.).....n*889
(See also Grade crossing elimination; also Track separation in this section.)
Laying track:
Record of 60 years' standing, Southern Pacific Co. e853.....880
Maintenance. (See Railway maintenance-of-way.)
Ties:
Combination ties. Walker & Mong..l583
English railways try steel ties.....390
Steel and concrete ties: present and future. e333; E. E. R. Tratman *345; N. F. Brown.....l473
Steel ties. C. Paff.....l561
Steel ties for German railways.....1029
Track separation:
Indianapolis, elevation for tracks....n40
New York City, agreement with N.Y.C.R.R. Co.....n725
Syracuse, decision.....n398

RAILWAY VALUATION
Reproduction cost must be considered. e813, n846; J. H. Campbell.....l1007
Supreme Court disapproves methods used.....869
Railway yards:
Mechanical car-washers, labor-saving...*503
Norfolk & Western, enlarged freight yard at Portsmouth, O.....*1033
Single-hump freight yard, Fort Worth, Tex.....*63
Single hump yards.....e332

RAILWAYS
B. & O. and C. & O. plan to form new systems.....n363
Brazil, S. E. Emmons to manage railway properties.....n287
California, examiner denies necessity for new railroad.....n920
Canadian National Ry. plans new branch lines.....n325
Canadian Pacific to build 1,200 miles of branch lines.....n196
Central Pacific R.R. to build extension in California.....n37
C. & O. Ry. to make improvements.....n398
Chicago, Rock Island & Gulf Ry. proposes new lines.....n197
China, A. M. Shaw to build railway.....n398
Great Northern and Western Pacific plan extensions.....n326
Great Northern and Western Pacific rys. seek to connect lines in Oregon. n608, e659, n*689; R. E. Kelly.....l882
Hudson Bay Railway:
Outlet for grain to Europe.....e577
Progress.....1379
Idaho Pacific Ry. Co. proposes new line through Idaho and Oregon.....n565
Improvements of two decades. e855; C. A. Morse.....*864
Interrelations and financial accounting..e616
Mexico, Southern Pacific lines damaged by bandits.....868
Missouri Pacific R. R. plans to lease 21 Southwestern railroads.....n401
Moffat cutoff hearing, Feb. 26.....n280
Moffat road should build Dotsero cut-off.....n82
Nebraska (Norfolk) — South Dakota (Yankton), railroad, progress.....n398
New lines authorized by I.C.C.....n885
New York & St. Louis Ry. (Nickel Plate) asks to acquire Wheeling & Lake Erie.....n649
New York Central:
Asks for final order on unification...n725
Authorized to lease its controlled lines. e166.....n196
Offers plan for west side of Manhattan.....n156
Pan-American Railway, status.....*353
Progress during 1928.....e209
St. Louis Southwestern R.R. to open new route from St. Louis to Memphis.....n79
St. Paul & Kansas City Short Line to build new line.....n807
Santa Fe R.R. permitted to build 35-mile cutoff in Texas.....n80
South Dakota, Mound City & Eastern Ry.....1495
Southern Pacific R.R.:
Builds line from Klamath Falls to Alturas to open up timber territory. *181; R. E. Kelly.....l882
First transcontinental railroad, 60th anniversary.....e853, 880
To build new line at San Jose, Calif..n609
Texas, application for two new lines...n1009
Texas, Kansas City, Mexico & Orient R.R. proposes new line.....n516
Texas, new lines proposed. n247.....n609
Wabash Ry. plans trunk line east of the Mississippi.....n726
Rainfall and runoff:
Data of a cloudburst flood in Rondout Creek, N. Y. E. A. Van Deusen. *389; correction.....l607
Detroit, high water breaks dikes.....n608
Runoff from dry areas.....e1015
Intensive rainfall records, Nebraska, analyzed. F. M. Veatch.....*839
Seasonal streamflow, method of forecasting. J. F. Partridge.....*752
Youngstown, O., high rainfall and river stage.....n608
(See also Floods and flood control.)

RAPID TRANSIT
Detroit, plan submitted.....n196
Fail to pass plan. e527.....n565
Plan to be submitted in another form *642
New York contracts for 1928.....n81
Progress.....e209
St. Louis formulating plans.....n38

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Rea, Samuel, pres., Penn. R.R., death. e487. ....*520

REGIONAL ENGINEERING AND PLANNING

Chicago Regional Planning Association, annual meeting, Feb. 5. ....n287
Cleveland and Cuyahoga County consolidation planned. n289
Consolidated cities. e489
Hamilton County, O., proposed commission. n288
Milwaukee region, engineering problems e578. ....*585
New York City, regional plan for area with 20 million population. e892. ....*907
New York Metropolitan District, plan for future development. n849
Progress during 1928. ....e210
Small communities adopt plan. 7
Small towns benefit. 424
Wilmington, Del., commission to report on plan. n884
(See also City planning.)
Rehbock, Dr. T., lectures on hydraulics. ..*481

RESERVOIRS

Cincinnati, multiple-tank reservoirs. J. A. Hiller. *414
Hartford, Conn., to build storage reservoir on Farmington River. n198
Portsmouth, O., building a concrete reservoir. R. J. Turrell. *97
Tacoma, Wash:
Drainage channels closely spaced under concrete lining, North End reservoir. j*687
Parapet, useful and adds finish. j*360
Plans new storage reservoir. n608
Wanaque reservoir, N. J., filled in less than a year. *723

RETAINING WALLS

Reconditioning the concrete wall of the Yale Bowl. e127; T. Crane. *134
Retaining wall and soil-research work at M.I.T. 906
Simplified method of calculating volumes. W. F. Covil j*765; correction. . 798

RIVER IMPROVEMENTS

Brazos River, diverting to improve Freeport harbor, Tex. *988
Chicago River, excavating new channel. e695. ....*717
Ohio River development, progress. 240
Rio Grande river, boundary commission proposes to stabilize. n921

RIVERS

Behavior of rivers in alluvial flood plains. e412; R. N. Towl. *433
Brazos River, diverting to improve Freeport harbor *988
Chicago River reverses flow after heavy rainfall 719
Again reverses n1003
Colorado River. (See Colorado River.)
Connecticut River, limit on amount for Boston use. n884
Connecticut River, water-diversion suit lost by state. n725
Delaware River, New York State has legal right to divert water. e657. 680
Delaware River, Tri-state compact. B. Franklin l1044
Illinois River, building a lock and dam at Starved Rock. S. Van Pelt. *778
Mississippi River. (See Mississippi River)
Nile River silt, agricultural value. E. McK. Taylor 993
Ohio River locks and dams, progress. .. 240
Rio Grande river:
Boundary commission proposed stabilization. n921
Diversion, objections. n923
U. S. and Mexico must construct regulating works. C. H. Pease. *829
St. Lawrence River, power development recommended n443
Power scheme approved e449, n483
(See also Waterways, St. Lawrence River.)
(See also Floods; Water compacts; Water rights.)

ROAD SHOWS

A.R.B.A.:
Equipment advancement shown at 1929 show; staff report. n160. ....n201
More than a spectacle. e257
Equipment makers seek to eliminate regional exhibits. n773
Mass. Highway Association, fifth outdoor road show, May. 7-9. n485. ....n811
Southeastern Road Show, Jacksonville, March 19-23. ....n291
Southwest Road Show and school, Wichita. n445
Roads. (See Highways; Pavements; Streets.)
Robinson, A.F., noted bridge engineer, death. n*197
Roof, cantilever concrete, unique, Argentine ry. station. O. Gottschalk. j*1039
Russia seeks American technical aid. n967
City plan commission, Bartholomew re-

S

Safety. (See Accidents and accident prevention; Construction, safety; Highway accidents; Railway operation.)
Safety Congress, annual (18th), Chicago, Sept. 30-Oct. 5, 1929. ....n116
St. Louis:
Officials charged with graft on lighting contract. n767
Refuses resignation of H. Bartholomew n884, n1047
Sales:
Credit reform demanded in time-payment sales. S. M. Williams. 535
Sand, amount paid for a load. E. R. Dawley 1032
Sand, rewasher, new screw design (Smith Engineering Works) n*123
Saw rig adaptable to many classes of work (Master Woodworker Mfg. Co.) n*811
Sawyer, E. W., executive assistant in Dept. of the Interior. n481
Scarafier, air cylinder for, under deck of roller (Huber Mfg. Co.) n*84
Science and fifty years. e1015
Screens, bar, cleaned by power (Dorr Co.) n*972
Sea walls:
Interlocking precast forms used in making concrete seawall, Calif. *872
Sewage associations:
Progress. e697
(See also names of associations.)

SEWAGE DISPOSAL

Fertilizer use of sludge:
Tri-Cities plant, sludge-cake production. 512. ....e488
Land disposal of activated sludge at San Marcos, Tex. E. G. Eggert and C. Cohen *830

SEWAGE TREATMENT

Activated sludge:
Small plant has pre-aeration before activation and air diffusion through porous tubes. E. W. Steel. *761
Aeration:
Submerged brushwood contact aerators, Jacksonville, Tex. H. L. Thackwell 1*35; correction. 133
Chlorination:
Relieves ponding on sewage filter beds. F. W. King and R. C. Williams *621; correction. 681
Grit chamber, self-cleaning, for plant (Dorr Co.) n*292
Misleading cost figures. e167
New Jersey ocean towns, minimum degree of treatment required. 318
Prechlorination: successful at Virginia Beach. W. W. Watkins. 783
Progress during 1928. ....e208
Sludge digestion:
Digesting sewage sludge at its optimum pH and temperature. Baltimore. C. E. Keefer and H. Kratz, Jr. *103

SEWAGE WORKS

Baltimore, Md., digesting sludge at its optimum pH and temperature. C. E. Keefer and H. Kratz, Jr. *103
Chicago Sanitary District:
Dilemma 396, e413, 441
Tractor grading for sludge beds. j*513
Chicago sewage-works, progress. 240
Detritor for washing and removing deposits in grit chambers. *423
German works, interesting features. 862
Grit chamber, self-cleaning (Dorr Co.) .n*292
Harrison, N. Y., new sewage grit removal and washing installations. *423
Jacksonville, Tex., submerged brushwood contact aerators. H. L. Tackwell 1*35; correction. 133
Lackawanna, N. Y., chlorination relieves ponding on filter beds. F. W. King and V. V. Williams *621; correction 681
Mercedes, Tex., small activated-sludge plant. E. W. Steel. *761
Pasadena, sludge-cake production increased by use of diatomaceous earth. e488. 512
Rochester, N. Y. extension of sewage-works. n851
San Antonio, Tex., activated-sludge plant bids wanted. n197
San Marcos, Tex., land disposal of sludge. E. G. Eggert and C. Cohen. ..*830
Virginia Beach, Va., prechlorination ahead of septic tanks. W. W. Watkins 783
Winston-Salem, N. C., new installation, detritor. *423

SEWERAGE SYSTEMS

Buffalo, N. Y., comprehensive plan for sewage disposal. n363
Chicago, radical methods needed. e331
Chicago Sanitary District, serious situation. 396, e413. 441
Economic features in design. e450: G. O. Consoer. *463
Grand Rapids, Mich., campaign to make sewers a utility. 391. ....e371
New Orleans to expand system. n120

SEWERS

Check gate for sewers and drains flowing into tide waters. A. R. Matthews j*785
Construction:
Quicksand, methods of handling. e369; A. P. Learned. 392
Los Angeles districts participate in metropolitan plan. n610
Manhole ventilator. j*193
Manholes built of radial concrete blocks. *133
New Jersey:
Passaic Valley, contractor wins claims based on false borings. e53. 66
Ocean outfall sewer problems. e615
Oklahoma City, concrete pipe trouble. . 280
Shaw, A. M., to build railway in China. ..n398
Shear, punch and coper combination machine (J. T. Ryerson & Son) n*122

SHOVELS

Power:
Full revolving, convertible, improved in speed and power (Speeder Machinery Corp.) n*851
Gasoline power shovel of 1/2-yd. capacity develops 48 hp. n*85
Heavy duty 1-yd. power shovel (Link-Belt Co.) n*84
New diesel-driven drag shovel (Bucyrus-Erie Co.) n*694
Pull shovel, new, incorporates shock absorber details (Koehring Co.) ..n*811
Show revolutionary advance. J. G. Miller *556
Variable-speed engine, new, for power shovel (Northwest Engineering Co.)n292
Silt, Nile, agricultural value falacious. E. McK. Taylor. 993
Siphons:
Automatic siphon control for small water-supply system. j*76
Slide rule computations, position of decimal point. W. J. Alcott, Jr. j*886
Smith, H. H., appointed chief engineer of New York Board of Estimate. n398
Snow removal
Snow plow blade raised and lowered by compressed air (Good Roads Machinery Co.) n*42

SOIL

Erosion, studies by Dept. of Agriculture. 681
Quicksand, methods of handling in sewer construction. e369; A. P. Learned. .. 392
Soil mechanics. (See Foundations.)
Sound:
Loudness scale, audiometer, applied to problems of practical accoustics. e52; W. Waterfall *50; E. McCullough. ..l 322
South American Railway Congress, 3rd, Santiago, Dec. 1929. 753
Spillways. (See Canals; Dams; Mississippi river; Reservoirs; Rivers.)
Stadiums:
Yale Bowl, reconditioning the wall. e127; T. Crane. *134
Stairway, concrete, built as a cantilever slab, Beverley Hills. j*1041

STANDARDIZATION

Equipment standardization an economic need. C. S. Embrey. 548
Mistaken goal. e697
Practical advantages—30 years' experience. F. L. Copeland. 841
Standpipes. (See Tanks and standpipes.)
Steam power:
Drift to, on West coast. e206
Pacific Gas & Electric Co. to build steam electric generating plant in San Francisco n399

STEELWORK

Arc welding specification, e411; F. P. McKibben *425
Bridges. (See Bridges.)
Fact book prepared by Am. Inst. of Steel Construction n889
Gunniting steel true to cross-section and alignment. e88, *94
Reinforcing road steel supported by easily removed device (Concrete Steel Co.) n*44
Stronger structural steel. e258
Structural steel, selling practices code. .n363
Tension and bend tests on flame-cut structural steel. J. R. Dawson and S. W. Miller a760
Welding—a new tool for the structural fabricator. F. T. Llewellyn. *459
Stone:
Cast stones, Bureau of Standards measures physical properties. 155
Storm tides:
Estimate of storm-tide hazards to New Orleans. e696; A. M. Shaw. *698
Discussion. J. P. Kemper, 1843; F. H. Fox and F. A. Muth. 1844
Stream discharge and velocity:
Forecasting seasonal streamflow. J. F. Partridge *752
(See also Floods; Rainfall and runoff; River.)
Stream pollution. (See Water pollution.)
Street flusher, for variety of tasks (Four Wheel Drive Auto Co.) n*812

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

STREET TRAFFIC

Accidents. (See Highway accidents.)
Baltimore, tube to relieve traffic recommended. n399
Cleveland regional area, strict alignment of travel increases capacity. a499
Free public garages only solution for Kansas City. C. W. Redpath 1397
Line sidewalks to effect pedestrian control, Detroit 21
London, roundabout system of traffic at certain squares *105
Parking:
Australian city exacts fee 992
Chicago, prohibited parking raises traffic efficiency. *435
San Francisco, subway urged as solution. n566
Seattle street extension provides new traffic outlets, W. D. Barkhuff *745
Street cars and buses in traffic transportation plan; abstract of paper before Phila. Engineers Club a470
Toronto plans to improve conditions n565
Traffic control in 1928 ..... e210
(See also Highway traffic.)

STREETS

Detroit lines sidewalks to effect pedestrian control. 21
San Francisco building wide boulevards. e165; L. B. Cheminant *168
Seattle, Wash., extension of Second Ave. provides new traffic outlets. W. D. Barkhuff *745

STRESSES

Arc-welded latticed steel columns, laboratory tests. B. M. Shimkin *879
Guy ropes and derrick stiff-legs, maximum stresses in. T. F. Davey j*359
Roof trusses, long-span, three-hinge, stress analysis. D. A. Molitor *667
Steel stresses, higher, legalized in Philadelphia code. e488, n519
Structural steel, flame-cut, tension and bend tests. J. R. Dawson and S. W. Miller a760
Timber structural framing, behavior of, under stress. S. E. Berkenblit *898
Transfer of stresses to new work. J. C. V. Christensen 1766
(See also Bridge stresses; Building design, wind-resistant.)

SUBWAYS

Cleveland, O., council votes down franchise. n610
Madrid underground railway extended 784
New York City:
Concrete's 15-year record. e370; G. L. Ludas *380
Contracts for 1928 ..... n81
Fulton St. tunnels, south bore headings meet e813, n845
Nassau St. subway, supporting foundations exposed during construction. L. White *1018
Subway fare case, Supreme Court refuses to pass upon e617, 641
Subway progress 241
Technical men discharged n1008, e1016
Philadelphia subway progress 240
Sugar in concrete, effect of. M. N. Clair 473

SURVEYS AND SURVEYING

Aerial photography. (See Maps and mapping.)
Elevation of Mount Whitney determined 99
Temple bill:
Authorized amounts not appropriated n227
Estimates and appropriations n365
Canada, aerial photographic work for 1928. 379
Triangulation:
Bilby steel towers prove value 442
Native Mexican Indians in charge of survey. G. H. T. Shaw 792
New first order arc from Cairo to New Orleans. 833
Swimming pools, underwater lighting. E. W. Beggs *783

T

TANKS AND STANDPIPES

Buffalo, Grover Cleveland towel-tank. e934; F. W. Wanzel *939
Falmouth, Mass., steel standpipe at Woods Hole. e934; E. B. Richardson. 942; correction. 1032
Multiple-tank reservoirs, Cincinnati. J. A. Hiller *414
Wire points keep birds off standpipe, Tacoma, Wash. j*77
Tariff:
Cement and brick, duty on n769
Technical progress, new features e659
Telephones:
Long-distance construction by A. T. & T. in 1929. ..... n286
Templets. (See Highway equipment.)
Terzaghi, *Dr.* Charles, resigns from M.I.T. 1929. ..... I-(n)1048
Tide gate for sewers and drains. A. R. Matthews j765
Ties. (See Railway track and trackwork.)
Tile:
Interlocking-rib wall tile features structural strength (L. S. Munson) *612
Use of 4-in. instead of 3-in. saves labor (L. G. Reed) j76
Timber (see Wood).
Tools:
Motorizing the hand tool. C. H. Vivian ..*528
Torches:
Oxyacetylene. (See Welding and Cutting.)
Swivel head, new design for work in difficult locations (G. H. Williams Co.) n*122
Towers:
Carillon tower, Mountain Lake, Florida. n*287
Machine. (See Construction, equipment.)
Triangulation. (See Surveys and surveying.)
Tracings. (See Drawing and drawings.)

TRACTORS

Chicago sewage sludge beds, tractor grading j*513
Crawler tractor in smaller size (Allis-Chalmers Mfg. Co.) n*44
Crawler type, new model (Caterpillar Tractor Co.) n*694
Crawler unit, new, for tractor attachment (McCormick-Deering) n*329
Mechanical bulldozer for heavy tractor application (Wausau Iron Works) n*84
Tractor places lines of 4-in. drain tile without ditching j634
Traffic. (See Highway traffic; Street traffic.)
Traffic counting apparatus, electric, Holland tunnel 914
Trailers:
Three-way dump trailer for use in soft ground (Athey Truss Wheel Co.) n*42
Tramways:
Aerial-tramway development for construction haulage—Coolidge and Pardee dams. M. P. Morrison *856
Cable tramway, 4-mi., Pardee dam construction. C. E. Grunsky, Jr. *259
Cableway carries load across 2,295-ft. span, Hetch Hetchy project. L. W. Stocker *793
Transportation:
Aviation as a new factor in transportation. W. G. Herron *232
Better communication e255
Street cars and buses in traffic transportation plan a470
Travelers:
Creeper traveler erects suspension bridge tower at Detroit. L. L. Martin *186
Trenching and trenching machines. (See Excavating machinery and Excavation.)
Trusses:
Stress analysis of long-span three-hinge roof trusses. D. A. Molitor *667
Tubing, bending, for structural members. M. Schwam. j*194

TUNNELS AND TUNNELING

Boston to East Boston, vehicular tunnel proposed n157
Cascade tunnel of Great Northern Railway:
Driving the second tunnel, methods and records *334
First train through, Jan. 12 ..... n38, 238
Opening ceremonies, Jan. 12, 1929. ..... e87, n*123
Channel, British committee to study economic features 877
Delaware River tunnel, South Philadelphia and Gloucester, N. J. proposed n401
Detroit to Windsor vehicular tunnel:
First section placed n808, n1045
Progress. 239
Doors used by Pennsylvania R.R. to prevent formation of ice n365
East River twin subway tunnels shield driving through sand clay e813, n845
Hetch Hetchy water supply tunnels, progress *171
Holland tunnel:
Traffic counting apparatus, electric ..914
Traffic sets new record n809
Hudson River, second vehicular tunnel proposed n37
Lining concrete, small-bore tunnels e935, *951
Moffat tunnel:
D. & S. L. R.R. disputes rental terms ..n247
Suit to declare bonds invalid n40
Narrows tunnel, from Bklyn. to S. I., city to build e411, n444
Site selected *1001
Nashville, Chattanooga & St. Louis R.R. opens new tunnel n37
New York City, contract awarded to Patrick McGovern, Inc. n482
New York City, vehicular tunnel under East River and a second tunnel under Hudson River proposed n967, e976
New York Port Authority asks control over vehicular tunnels between New York and New Jersey n300
Oakland estuary tube:
Methods of controlling traffic ..e695, *711
Opened to traffic, Oct. 27, 1928 238
Railway:
Cascade tunnel. (See Tunnels, Cascade tunnel.)
Moffat. (See Tunnels, Moffat tunnel.)
N. C. & St. L. R.R. open new tunnel through Chattanooga Mountain n37
Small-bore tunnel driving in New England e935, *951
Vancouver, C. P. R. project n1046
Ventilation:
Amount of smoke no measure of carbon monoxide. O. Singstad l881
Carbon monoxide e695, *710
(See also Aqueducts; Sewers, Subways, Water mains.)

TURBINES

Chippewa Falls, has turbines of propeller type with adjustable vanes e87, *106
Deep-well turbines for use in small-bore wells (American Well Works) n*873
High-head turbines, bids, Pacific Gas & El. Co. n1047
Russian government orders largest turbines and generators. n516
Steam:
Largest generator unit placed in service, Un. Elec. Light & Power Co., N. Y. n922
Typhoid fever:
Maryland shows decline 632
Olean water-borne typhoid caused 20 deaths. n39
Typhoid and general death rate low in 1927 385
Water third cause in outbreaks 473
(See also Water mains, cross-connections; Water pollution.)

U

Ulen & Co. move offices to Lebanon Ind. n768
U. S. Bureau of Reclamation:
Conference, biennial, March 11; engineers urge more reclamation. n521
U. S. Census:
Bill passed n1009
Changes e1017
U. S. Chamber of Commerce:
Meeting (17th) Wash., April, 1929; large industrial problems discussed ..e737, n767
U. S. Civil Service:
Opportunities for engineers 469
U. S. Dept. of Commerce:
Report on "Recent economic changes in the U. S." e814, 842
University of Cincinnati makes Dean Schneider president n969

V

Valuation. (See Public utilities; Railway valuation.)
Vancouver, B. C., expenditure for public improvements n1047
Van Norman, H. A., mgr. of Los Angeles Water and Power Dept. n*480
Venturi meter:
Remarks on its application and possibilities. C. Herschel 636
Viaducts:
New York City, building design applied to a boulevard viaduct e976, *978
Richmond, Va., new high level viaduct ..n287
Vibration:
Tests of traffic-vibration dampers for buildings. e369; S. E. Slocum *377
Virginia conference on water and sewage treatment, April 25-26 ..... n566
Virginia Water and Sewer Works Association, organized. ..... n724; correction 791

W

Wagon, crawler dump, utilizes hydraulic operated doors (LaPlant-Choate Mfg. Co.) n*851
Walls:
Dividing wall of coagulating basin, Baltimore filtration-plant. e577, J. W. Armstrong *597
Terra-cotta tile partition walls, 4-in. cheaper than 3-in. L. G. Reed j76
Water compacts:
Colorado River. (See Colorado River.)
Delaware River, tri-state compact. B. Franklin l1044
(See also Water rights.)
Water consumption:
Consumption varies with standards of living and fluctuations in industrial conditions. e934; A. Wolman *943
English and Scotch cities, 19 to 98 U. S. gal. 145

WATER INTAKES

Detroit man refused injunction stopping project. n769
Faulty intakes e615
Hamilton Ont., intake conduits for waterworks *787
Pittsburgh water-works, deep trench emergency intake ..e615; R. M. Riegel *638

WATER MAINS

Cross-connections:
N.E.A.W.A. cross-connections resolutions, R. S. Weston and E. S. Chase.l 78
Letter ballot upholds committee on cross-connections n327

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Detroit, bids on two pipe materials and 4 joint types n481
Suspension bridge of 170-ft. span carries 36-in. steel pipe. T. W. Espy *861
(See also Pipe and pipe lines.)
Water meters:
Design and practical test of integrating flume meter. J. W. Ledoux *428
Venturi meter, remarks on its application and possibilities. C. Herschel 636

WATER POLLUTION

U. S. Public Health Service gives stream pollution course n565
Virginia stream pollution to be investigated n769
(See also Typhoid fever.)

WATER RIGHTS

Connecticut River, limit on amount for Boston use n884
Delaware River water:
Legal for New York to divert e657, 680
Pennsylvania to join N. J. in diversion suit n883
Interstate waters e657
Mexico court decision on underground waters n723
"Reasonable use" of water awaits adjudication in California 102
Rio Grande, co-operation versus competition for international water. C. H. Pease *828
Rio Grand diversion n923
(See also Water compacts.)

WATER SUPPLY

Aberdeen, Wash., anchoring a wood-stave pipe line in sliding ground. S. C. Watkins 966
Baltimore, Md., bureau organized n197
Boston metropolitan district, water project, progress 241
Boston use of Connecticut River limited n884
Cedar City, Utah, field-welded pipe hung on canyon walls. C. J. Ullrich *465
Chicago, new company to develop municipal supplies n291
Cincinnati, multiple-tank reservoirs. J. A. Hiller *414
Detroit, extensions upheld by engineers n286
Detroit water board builds for itself and other depts. G. H. Fenkell and D. C. Grobbel *949
East Bay Municipal Utility District, progress on Mokelumne project 238
Everett, Wash., work to start on water system n886
Greater Vancouver district, laying riveted steel pipe. e935; F. C. Stewart *960
Hendersonville, N. C., water from Pisgah National Forest. P. P. Phillips 713
Holland, public supplies serve 60 per cent of population 966
Illinois, rural school wells 512
New England, tunnels, small-bore, driving methods e935, *951
New Jersey water board, A. H. Pratt, consulting engineer n968
New York City:
Catkill system, tunnel No. 2, contract awarded to Patrick McGovern, Inc. n482
Extensions 241
New York State has legal right to divert Delaware River water e657, 680
Providence, R. I., board retired at own request n1047
San Francisco, Hetch Hetchy project:
Cableway carries load across 2,295-ft. span. L. W. Stocker *793
Progress on tunnels *171, 238
Southern Calif. Metropolitan Water Dist. to direct Colorado River acqueduct project 512
Yankton, Mo., abandons artesian wells for Missouri River. F. G. Brueckmann *990
York, Pa., administration building of York Water Co. E. P. Kable *950

WATER TREATMENT

Aeration:
Spray aerator for filtered water, Waterford, N. Y. R. G. Yaxley *498
Chlorination:
Concrete well for chlorine control, small direct-pressure water system. E. Boyce j*1042
Feeding chlorine through long pipe. St. Louis. A. V. Graf 938
Filtration:
Control of washing at rapid filtration plants, Baltimore. E. S. Hopkins *841
Ottawa, constructs research filtration plant n198
Hydrogen-ion concentration, improved field equipment for determination of. E. Hurwitz and L. S. Krau *704
Iron, elimination of, Asbury Park, N. J. S. K. Knox j*1049
Many-purpose water-treatment plant for Beverly Hills, Calif. e935, *936
Ozonization disinfects filtered water at Delhi, N. Y. 683
Softening, zeolite used, at Mangum, Okla. H. B. Crane *900
Tulsa, Okla., building a 24-m.g.d. purification plant. F. M. Veatch *964

WATER-WORKS

Asbury Park, N. J., elimination of red-water trouble. S. K. Knox j*1040
Baltimore, Md.:
Dividing wall of settling basin fails n519
Failure of dividing wall in old coagulation basin of filtration-plant. J. W. Armstrong *597
Beverley Hills, Calif., many-purpose water-treatment plant. e935, *936
Davenport, Ia., purchase of Davenport Water Co. postponed n327
Delhi, N. Y., ozone installation 683
Filtration plants:
Baltimore, control of washing. E. S. Hopkins *841
Lockwood, N. Y. plant assured n945
Mangum, Okla., zeolite water-softening plant, uses open basins instead of pressure tanks. H.B. Crane *900
Ontario has 251 systems 640
Paterson, N. J., condemnation commission declared illegal n250
Pittsburgh, deep trench emergency intake. e615; R. M. Riegel *638
Port Jervis, N. J., votes to buy property of local water company n363
Progress during 1928 ..... e209
Pumping stations:
Detroit, emergency stormwater, pumping station. M. F. Wagnitz *832
Kalamazoo, Mich., centrifugal and deep-well pumps draw from one well. E. E. Norman *956
Records necessary to insure efficiency. C. D. Murdick 963
St. Louis, Howard Bend station, turbine-driven pumping unit n*972
Willimantic, Conn., remodelling pumping unit cuts out steam power. H. W. Taylor *958
St. Louis:
Chain of Rocks plant, feeding chlorine through long pipe. A. V. Graf 938
Extensions 239
Howard Bend plant opened n1008
Tanks. (See Tanks and standpipes.)
Texas, annual short school, Jan. 23-25 ..... n248
Tulsa, Okla, water purification plant. F. M. Veatch *964
Waterford, N. Y., spray aerator. R. G. Yaxley *498

WATERWAYS

Illinois waterway:
Cost of bridges not to be charged to state road fund, 1929. I n1009
Progress, 1929. I 239
State considering transfer of waterway to federal govt. 1929. I e854, n884
Inland waterways traffic increasing 359
Progress in the waterways system e209
St. Lawrence River:
Canada halts discussion n286
Canada to hold conference n398
Westchester, Ill., garden city. e293; A. W. Consoer *308

WELDING AND CUTTING

Arc:
Arc welder and air compressor on one chassis (Wilson Welder & Metals Co. n*122
Carbon-arc welding, water-cooled electrode holder for (Lincoln Electric Co.) n*403
Electric holder, new, for metallic arc welding (Lincoln Elec. Co.) n925
Erecting hospital addition j*684
Failure of welded joint on bridge airlock n919, e975, n*1010
Four floors added to six-story building by arc welding *313
Four-story commercial building, Cleveland e617, *618
Hotel, Hot Springs, Va. H. M. Priest *490
In manufacturing, shown by film (Lincoln Electric Co.) n122
Laboratory tests on latticed steel columns, B. M. Shimkin *879
Lincoln Electric Co.'s school expands n693
Major provisions of an arc-welding specification. e411; F. P. McKibben *425
Twin generator set (Electric Arc Welding Co.) n485
Building codes allow welding 544
Field-welded pipe hung on canyon walls. C. J. Ullrich *465
Inspection welding. W. R. Conard 178
New design medium e617
New tool for the structural fabricator. F. T. Llewellyn *459
Oxyacetylene:
Building up worn rail ends in track of Canadian Pacific Ry. 719
New medium-pressure generator (Oxford Acetylene Co.) n*730
Data needed on flame cutting of structural steel e853
Submarine cutting torch used at High Bridge viaduct j*514
Tension and bend tests of flame-cut structural steel. J. R. Dawson and S. W. Miller a760
Torch used on difficult under-water work. C. Kandel *833
Union Carbide Co., Niagara Falls, gas-welded buildings e1015, n*1046
Standardization a mistaken goal e697
Test of heavy column joints of Hudson River bridge shows good results. e369, *385
Well points:
Use in wet ground. W. H. Cadwell l515
Wells:
Artesian wells abandoned by Yankton for Missouri River. F. G. Brueckmann. *990
Illinois, survey of rural school wells 512
Western Society of Engineers, 60th anniversary e933, n969

WHARVES AND DOCKS

Alabama state docks at Mobile, progress. 240
King Edward Pier in Montreal harbor to be strengthened n38
Lackawanna R.R. to build new pier at Hoboken, N. J. n156
New York City, pier extension inland proposed n*806
Southampton, England, first monolith laid 393
Wheels, new eight-wheel drive unit with crawlers for motor truck (Browning Crane Co.) n*694
Wind velocity, Bureau of Standards uses hot wire to measure 601
(See also Building design, wind-resistant.)

WOOD

Fireproofed lumber for scaffolding. H. H. George l115
Freight rates on lumber established by I. C. C. n400
Lumber to be graded by moisture content n654
Lumbermen charged with unfair practices n1013
Price cutting condemned by lumber men. n197

WOOD PRESERVATION

Absorption of wood preservatives. e165; J. D. MacLean *176; J. Barnett l479
American Wood Preservers Association annual meeting, Jan. 22-24 ..... n249
Colored preservatives produced in Germany n1013
Combating destruction of wood in tropical regions e695
Creosoting process, non-pressure, good results 455
Treating the heads of wood piles 73
U. S. wood may regain favor in tropics. n852
Woodworker, electric, new small size (De-Walt Products Corp.) n*485
World Engineering Congress:
To meet in Chicago, 1933 ..... n650
Tokyo, Japan, Jadwin, Maj. Gen. Edgar, to represent War Dept. n847
World Power Conference:
American section to have O. C. Merrill as head n967
Sectional meeting, Barcelona, Spain, May 15-23 ..... n805
Yaxer, L., elected president A.R.E.A. n*443

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news
